| 7   | Assessment of Part 2 Matters and Policy   |
|     | An assessment of the activity against the matters set out in Part 2 of the RMA and against any relevant provisions of policy documents and regulations must be provided with the application. The assessment must be in sufficient detail to satisfy the purpose for which its required.  |
|     | For most applications the brief assessment provided below will be adequate. However for activities with significant policy implications, or where a National Policy Statement is relevant, a specific more comprehensive assessment is likely to be required.   |
|     | The proposal is consistent with Part 2 of the RMA (the focus of which is to promote sustainable management of natural resources). The Regional Fresh Water Plan for Taranaki generally supports taking groundwater if salt water intrusion is avoided and adverse effects on nearby groundwater users and surface water are avoided, remedied or mitigated. |
