## Application to which submission relates

Name of applicant Airport Farm Trust Limited  
Proposal (activity type and location) Chicken Sheds located on 58 Airport Drive requesting change from poultry broiler sheds to free range configuration and to operate the site beyond 2026.  
TRC Consent number/s 5262-3.0  
I am a trade competitor for the purposes of [section 308B](#) of the Resource Management Act 1991 No

## The specific parts of the application this submission relates to are:

My submission relates to the whole application Yes

## Submission details

Please provide details of your submission. If your submission is in a document, you can upload the document below.

- We do NOT want the existing resource consent extended beyond 2026.
- We do NOT want the operation to be changed from broiler shed to free range unless we are better informed about quality outcomes, and even then we do not want the any new consent to be granted beyond 2026.
- We do NOT believe this is simply a renewal of the existing resource consent as the change from broiler shed to free range should be a completely new resource consent application due to the change of conditions.
- By not making regular complaints regarding odour pollution to TRC over the last past few years, AFT have used this as an argument in their favour in the application that there is no air pollution, however it does not reflect the true situation.
- NPDC is looking to re-zone our property from rural to residential. Who is going to want to purchase residential

sections across the road from chicken sheds? We believe NPDC should be consulted as well.

- We believe any property within 400m of the chicken sheds should have been contacted regarding this resource consent application and not just the 5 property owners.

- A joint submission has been compiled by the 5 notified parties under the resource consent application and has been uploaded as an attachment (some points have been changed to reflect our position).
