## Submission details

Please provide details of your submission. If your submission is in a document, you can upload the document below.

Note: Document uploaded  
\*We do not want the existing resource consent to be extended past 2026  
\*We do not want the chicken sheds changed from broiler to free range without more information as to air quality outcomes although we don't want it extended past 2026 either way.  
\*We do not agree this is simply a renewal of the existing resource consent, changing from broiler to free range should require a new resource consent application due to change of operating conditions.  
\*By not making regular complaints to TRC regarding offensive odour and dust pollution AFT have used this as an argument in their favour saying there is no air pollution, this is not true in our daily experience of living in their stink zone.  
\*NPDC are looking at rezoning our area, the continuance of the chicken sheds beyond 2026 will hinder our future and

development plans, we believe NPDC should be an involved party in this resource consent.

\*We believe any property within the 400m surrounding the chicken sheds should have been contacted regarding this resource consent, not just the 5 that have advised.

\*A joint submission has been compiled by the 5 notified parties under the resource consent application and has been uploaded as an attachment, some points are changed to reflect our individual positions.
