An assessment of the activity against the matters set out in Part 2 of the RMA and against any relevant provision of policy documents and regulations must be provided with the application. The assessment must be in sufficient detail to satisfy the purpose for which its required.

For most applications, the brief assessment provided below will be adequate. However for activities with significant policy implications, a specific, more comprehensive assessment is likely to be required.

The proposal is consistent with Part 2 of the RMA (the focus of which is to promote sustainable management of natural resources) and supported by the relevant Regional Plan.

The Regional Freshwater Plan for Taranaki supports realigning/diverting of a stream if adverse effects such as those associated with flooding, restricting fish passage and loss of stream habitat are avoided, remedied or mitigated. These requirements can be met by appropriate conditions on any consent issued, including, for example, the payment of a financial contribution to mitigate habitat loss.
