6 Assessment of Part 2 Matters and Policy

An assessment of the activity against the matters set out in Part 2 of the RMA and against any relevant provisions of policy documents and regulations must be provided with the application. The assessment must be in sufficient detail to satisfy the purpose for which it's required.

For most applications the brief assessment provided below will be adequate. However for activities with significant policy implications, or where a National Policy Statement is relevant, a specific more comprehensive assessment is likely to be required.

The proposal is consistent with Part 2 of the RMA (the focus of which is to promote sustainable management of natural resources). The *Regional Fresh Water Plan for Taranaki* generally supports drilling and constructing of wells and bores if aquifer cross-contamination and contamination from the surface is avoided. These requirements can be met by including reasonable conditions on any consent granted.

If the consent is notified, a larger deposit will be required. We will advise if the application is to be notified.
