"The priority for the community and for ratepayer expenditure is community sport facilities which enable thousands of residents to be active every week as identified in the Regional Sports Facility Strategy. Consultation regarding proposed enhancements has not been transparent or community-wide, evidence around decisions has not been provided, and the enhancements do not align with the Strategy or the current processes followed by sports for facility development. We support that a repair of some scale needs to be undertaken but require more detail of what is included in the \$36m is required and what scale of stadium is appropriate for the region now and into the future. We do not support the \$19m of enhancements which should be accounted for within the existing Asset Management Plan and/or via the Regional Facility Strategy process if sport-related. We feel strongly that there is a great need for an equitable approach to facility improvements and funding across ALL sports." It is time a wider and more long term approach to ALL sports is considered in the Taranaki community for the benefit and development of our rangatahi, crucial to competing on the national sporting circuit.

I am supportive of some work being necessary and required at Yarrow Stadium however am objecting to the vast amount of either 36M or 55M being spent for what is essentially a minority activity.

**Comment (field will expand as required)** At a time where other sports (hockey, netball, basketball as examples) are experiencing significant growth and pressure it would be wiser to widen the community based output of any expenditure to encompass the wider number of people.

Additional funding needs to be prioritised over both rugby and a facility which has a minority participation raae and limited usage amount.

Regards,

Mike.

Good morning

Please find attached a letter from Mr Peter Clark, and our response to him, around Yarrow Stadium. You will see that we have referred him to TRC to make a submission as the consultation is a regional council process.

Thanking you.

**Yarrow Stadium**

**What is your preferred option for the future of Yarrow Stadium?** 4: Repair stands with extra seating & additional community facilities

**Comment (field will expand as required)**

As a parent and sports fan (44 years young) i think we need to think forward rather than what we think we can afford now. The reality is that we need a decent stadium able to facilitate larger sporting events such as All Blacks games and we should be thinking further ahead with the potential cost our children could end up having to bear in mind if we dont spend now to save later. My concerns are these:

If we go with the \$50M odd option its a band aid fix which i think the community will regret eventually when we then have to spend more money to upgrade down the track in what will likely be a more expensive world that we, our children and grand children will be living in. The additional \$16M approx for option 4 is a good spend now because it will be at least double when we realise we didnt do enough i would suggest.

We need to consider return on investment. In my opinion this option gives us opportunity to get faster returns without needing to spend more down the track. Surely thats a sensible investment.

I would like to point something else out here. Im a basketball man involved with the Mountainairs and other aspects of this sport. Im torn with this because on the one hand we need a decent stadium for Rugby, soccer and League. However - we have a massive need for an adequate indoor facility. TSB stadium is inadequate and with the growth in basketball alone we need this remedied. The ideal is to have a multi

sports centre for all indoor sports that not only is used for playing in but also for corporate hosting etc.

One suggestion i have is for you to connect with the Aims Games organisers and your connections in Tauranga - why cant we have appropriate facilities to undertake an event like Aims. The money into the Tauranga community during that week must be huge and having attended this event i think we have a better infrastructure currently to deal with the demand!

Yes our friends at the TRFU need a solution - so does Netball, Basketball, Volleyball, Badminton and all the other minority sports out there. The racecourse area is the ideal place to do something sustainable for our regions future - not just with one sport (rugby) in mind. Lets be honest they will be the main benefactors. Think big - find a solution that places us well for the future not just sticking a band aid on a cut.

We need to spend it on other sports as well. Basketball courts, tennis courts, swimming pools.  
Rugby is not as big as it used to be.  
The \$55M should be distributed to different sports.  
We already spent too much money on the Yarrow Stadium and it has killed tax payers rates.  
No need for a flash stadium that cannot be filled with people.  
If we are spending this much money, I suggest rate payers to be free as we partly own them.

I do not support any one of the above options in full. I support an earthquake repair to the stadium in some scale but I do not support the \$19 million of enhancements which should be accounted for within the existing asset management plan. I am a former club rugby member and player and I love the sport but I do not wish to see such a large take of rate payers money go towards enhancements that is only used by an elite few. I believe the priority is for the community and for ratepayer expenditure is in a community sport facility (looking at the possibilities of developing the inner race track) which would enable thousands of residents to benefit from.

### COMMENTS

We support Option 2 in the first instance and if money can be found Option 4. We believe it's very important for our young people to be able to see high calibre sport and in there own province there are many who can't afford to travel and would never get to see these heroes and be inspired to try and achieve the same. The reinstated Yarrow Stadium is very important for our province future.

#### ADDITIONAL COMMENTS

I have concerns that investment into Yarrow Stadium will limit future opportunities in other sporting codes locally. Whilst a huge supporter of club rugby and Taranaki Rugby I would hope the costs would not deter from other community sporting codes. Update facilities to cover all codes. Sharing the games around Taranaki too - South of New Plymouth.

## Have your say

### Tell us what you think

You can have your say online, by email or through the post. And if you want to, you can come along and explain your views personally to Councillors.

All submissions will be carefully considered before final decisions are made.

If you want more information, see the Annual Plan Statement of Proposal at [www.trc.govt.nz](http://www.trc.govt.nz), or you can inspect a copy at the Council office at 47 Cloten Road Stratford, or at District Council service centres or libraries. You can also call us on 0800 736 222.

### Making a submission

Submissions must be received by 4pm on Tuesday 23 April (Tuesday after Easter)

Online: [www.trc.govt.nz](http://www.trc.govt.nz)

Email: [info@trc.govt.nz](mailto:info@trc.govt.nz) ('Annual Plan submission' in subject field)

Post: Annual Plan Submission  
Chief Executive  
Taranaki Regional Council  
Private Bag 713  
STRATFORD 4352

(The attached submission form can be used for postal submissions.)

### What happens next?

Submissions open: 18 March 2019

Submissions close: 23 April 2019

Hearing of and deliberation on submissions: 13/14 May 2019

Adoption of 2019/2020 Annual Plan: 21 May 2019

2019/2020 Annual Plan becomes operative: 1 July 2019

**What is your preferred option for the future of Yarrow Stadium?** 2: Repair stands and update facilities

**Comment (field will expand as required)** I strongly believe it is absolutly vital for our province economically and socially that we maintain and enhance key facilaties like Yarrow Stadium. Taranaki like no other. Lets pull together on this. Lets ensure our province is seen as progressive, modern and has the ability to promote itself as a great place to live. And continues to punch above its weight sporting wise.  
I have ticked option 2, but would prefer option 4 if the necessary private funding is available.  
Kind Regards Noel Caskey

**Comment (field will expand as required)**

The priority for the community and for ratepayer expenditure is community sport facilities which enable thousands of residents to be active every week as identified in the Regional Sports Facility Strategy. Consultation regarding proposed enhancements has not been transparent or community-wide, evidence around decisions has not been provided, and the enhancements do not align with the Strategy or the current processes followed by sports for facility development. I support that a repair of some scale needs to be undertaken but require more detail of what is included in the \$36m is required and what scale of stadium is appropriate for the region now and into the future. I do not support the \$19m of enhancements which should be accounted for within the existing Asset Management Plan and/or via the Regional Facility Strategy process if sport-related.

I feel strongly that there is a great need for an equitable approach to facility improvements and funding across all sports - especially basketball which is outgrowing the facilities that are currently available.

**Comment (field will expand as required)**

Why does it have to cost the rate payer anything? A building which is less than 20 years old should have been designed and built to the same design codes that are used today and that will be used to design any of the proposed upgrades. Are we going to go through this again in 20 years time? I assume this comes down to the inadequacies of the professionals involved in firstly designing the new stadium and then strengthening it some years later. I don't understand why rate payers should be paying for the mistakes of these design professionals. It is proposed to spend tens of millions of dollars to be in a similar or slightly better position as we were before? That's tens of millions of dollars we could be saving if someone had done their job properly in the first place.

Furthermore, there are other facilities within the region that could better use this money. The stadium may have hosted a small number of large events, but for many days of the year it sits empty. Other more frequently used facilities are also in need of an upgrade and have been asking for it since before the Len Lye Centre was built.

Hold the people that are responsible accountable (even if it takes several years - rugby can wait) and put the money towards new developments, not fixing old mistakes.

“The priority for the community and for ratepayer expenditure is community sport facilities which enable thousands of residents to be active every week as identified in the Regional Sports Facility Strategy. Consultation regarding proposed enhancements has not been transparent or community-wide, evidence around decisions has not been provided, and the enhancements do not align with the Strategy or the current processes followed by sports for facility development. We support that a repair of some scale needs to be undertaken but require more detail of what is included in the \$36m is required and what scale of stadium is appropriate for the region now and into the future. We do not support the \$19m of enhancements which should be accounted for within the existing Asset Management Plan and/or via the Regional Facility Strategy process if sport-related. We feel strongly that there is a great need for an equitable approach to facility improvements and funding across sports.”

We feel strongly that there is a great need for an equitable approach to facility improvements and funding across sports.

- o None of the above are a preferred option
- o Need a fiscally responsible option that gets the Stadium back to service with the least impact on ratepayers
- o Noting that only 1 event every 3 years attracts more than 12,000 spectators and no matter the visitor experience elite level spectator

sport is experiencing a downward-trend in attendees since the stadium was first upgraded nearly 20 years ago

- o Any additional funding from external sources (ie PGF, TSB Community Trust, NZ Lotteries) should be utilised to minimise the impact on ratepayers
- o The \$69million option (4) benefits corporate users (ie expos, conferences etc) who could be supporting private conference venues and supporting local business, this is not the core business of Council to fund facilities for such events
- o New Plymouth ratepayers do not accept that they will be liable for 78% of the costs plus up to 100% of the additional works should the \$69 million option proceed; this will negatively impact other community sport priorities outlined in the Regional Sport Facility Strategy
- o Sport-related facility upgrades (ie multi-sport turf, TRFU gym and building) should go through the Facility Steering Group as for all other codes and prioritised against need
- o There is concern that the large investment in Yarrow Stadium by ratepayers and other potential funders will have negative impacts on other priority facility projects for sport and recreation in Taranaki

Recognising that we need to pay something toward the regional facility, I am most comfortable with option 2. I am happy to pay a lesser amount towards the necessary repairs to the Stadium - but I am not comfortable with the amount of other upgrades mentioned or what has been projected for the South Taranaki ratepayers. We already have a top class facility in our own district that is already paid for by our District Council rates, so I think at the advertised \$51 (which actually turns out is \$58.65 flat targeted rate - a bit sneaky) is exorbitant. I don't think you can argue that our most southern towns of Waitotara, Waverley and Patea get a significant enough economic benefit from the Stadium to equate to a \$59 jump in rates per property, or even that our main hub Hawera sees that sort of benefit. I would suggest that this would be more palatable if you had put up a 'repair only' option with a more realistic pricetag.

**Comment (field will expand as required)**

The price you are proposing South Taranaki residents pay is unjustified. It benefits very few and economically it doesn't benefit those except those in the immediate surrounding areas. South Taranaki District residents would see little to no benefit from this, and it doesn't equate to the jump in rates that you are proposing. The dishonest manner in which it was proposed is also concerning. I recognise the need for Taranaki ratepayers to contribute to a regional facility through, let's say, repairing the stands - however the upgrades that have been included in Option 2 aren't justified and are exorbitant. Is there a way that you could put a simple 'repair only' option on the table?

### YOUR SUBMISSION

Note that your submission and any information you supply as part of it is considered public information and will be available in reports and documents relating to this process and will be published on our website, [www.trc.govt.nz](http://www.trc.govt.nz).

### YARROW STADIUM

Which is your preferred option for the future of Yarrow Stadium?

Tick one of these boxes:

- ☐ Option 1: Demolish stands, grass banks
- ☒ Option 2: Repair stands and update facilities.  
This is the Council's preferred option
- ☐ Option 3: Repair stands, add extra uncovered seating
- ☐ Option 4: Repair stands, add extra seating, add community facilities  
This is a potential preferred option if a co-funding partner emerges
- ☐ Option 5: New East Stand, extended West Stand, new South Terrace
- ☐ Option 6: New East Stand, extended West Stand, new North Stand, new South Terrace
- ☐ Option 7: New Stadium
- ☐ Option 8: New Stadium with roof

**I wish to present my submission personally at a hearing scheduled for 13-14 May.** Yes

**Yarrow Stadium**

**What is your preferred option for the future of Yarrow Stadium?** Other

Thank you for the opportunity to provide a submission on the Yarrow Stadium Funding options as part of your Annual Plan 2019/20.

Bizlink Hawera (Business Association) represents more than 400 Hawera businesses.

Summary of our submission:

**Comment (field will expand as required)**

Bizlink understands that doing nothing is not a viable option and is in support of the structural repair of the stands at Yarrow Stadium. However, Bizlink does not support any of the options in the Consultation Document, and asks the TRC to consider repairing the stands at an estimated cost of \$33 million.

In particular Bizlink has concerns about the way the repairs of the stands are to be funded. We believe it is unreasonable to impose such a large rate increase in one year and that the funding model for the Yarrow Stadium is flawed and detrimental to the ratepayers of South Taranaki.

Bizlink acknowledges the regional significance of the Yarrow Stadium as a (predominantly rugby) venue and agrees with the need to repair the stands and get the stadium up and running again. We also understand that the cost of repairing the stands is actually approximately \$33 million - the remaining \$22 million included

Ordinary Meeting to hear submissions on the 2019/2020 Plan - List of Submissions received (526) and scanned copies being for additional upgrades, (including things like new seating, lighting, extra retail/beverage spaces, car parking, astro-turf, a new building that will house a gym, toilets and changing rooms, audio visual upgrades etc). These upgrades may be desirable, but, given the circumstances, at this point in time they are unnecessary 'nice-to-haves'.

We agree we should contribute something towards the \$33 million cost for repairing the stands, but do not agree to the \$22 million for additional works..

Bizlink does not believe these additional new projects totaling \$22 million should have been combined with the repair of the stands and we cannot see the justification for the additional expenditure when ratepayers are already faced with a \$33 million bill. We do not necessarily object to these new projects going ahead but we do object to our (South Taranaki) ratepayers, who receive none of the revenue the Stadium generates and will receive little/none of the benefits from these projects, having to fund them. We ask, that if you decide to proceed with these projects that you find external sources of funding to pay for these additional facilities as stated in Pg 19 of the Yarrow Stadium Strategic Plan 2015-25.

We are also concerned that the funding of Option 2 will have a negative impact on future funding of other sporting codes and regional assets. We consider the preferred treatment provided to rugby union through this proposal is not equitable and not aligned with your own Regional Facilities Strategy.

While we accept that South Taranaki ratepayers should make some contribution to the repair of the stands, we are very concerned about the level of contribution.

Option 2, TRC's stated preferred option, would see an increase of over \$47 per South Taranaki ratepayer (from \$11 to \$58.65 per ratepayer). This is a substantial, and in our view unreasonable, increase in one year. South Taranaki ratepayers have previously each paid \$11 a year (plus GST) for the Yarrow Stadium. This contribution continued even after the initial loan was paid off in 2012. So in the last 7 years South Taranaki ratepayers have contributed in excess of \$1 million towards the upkeep of the stadium. If you add the contributions from North and Central Taranaki ratepayers the contributions toward the Stadium (not including revenue generated) should conservatively exceed \$5 million. The question has to be asked as to where this money has gone? If revenue generated from the venue has not been able to cover operating expenses (including maintenance) perhaps the whole way the facility is managed needs to be reviewed.

Bizlink believes that all of the proposals put forward fail to recognise that the benefits for South Taranaki are substantially less than for other districts due to the distance from the stadium (especially for those ratepayers who live in Patea or Waverley) and that the funding model used to come up with the (17%) ratio is completely outdated

As a way of minimising the impact on all Taranaki ratepayers we would like the TRC to consider extending the loan period (which should reduce the upfront cost) and programme the projected work in such a way that borrowing can be spread. For example TRC may complete only 10-20% of the work required in the first year. If this is the case you don't need to loan fund for the full amount in the first year, but increase it incrementally as loans need to be drawn down.

In conclusion Bizlink Hawera does not believe that option 2 as it stands (your preferred option as outlined in your consultation document) is fair or reasonable. We also feel that the 17% ratio you have apportioned to South Taranaki ratepayers is too high for the actual benefit we receive and that the model used to justify this is outdated. We do accept that doing nothing is not an option and are in support of the structural repair of the stands at Yarrow Stadium at an estimated cost of \$33 million. However the additional \$22 million of new projects or upgrades are an unnecessary burden for all our ratepayers, which we are strongly opposed to being funded in this manner and would like you to seriously reconsider.

Thank you.

Alison Smith, Secretary, Bizlink Hawera  
On behalf of the Bizlink Hawera Executive

I support that a repair of some scale needs to be undertaken but require more detail of what is included in the \$36m is required and what scale of stadium is appropriate for the region now and into the future. We do not support the \$19m of enhancements which should be accounted for within the existing Asset Management Plan and/or via the Regional Facility Strategy process if sport-related. I feel strongly that there is a great need for an equitable approach to facility improvements and funding across sports."

**Yarrow Stadium**

**What is your preferred option for the future of Yarrow Stadium?**

1: Demolish both stands, replace them with grassed banks

We have no objection nor preference for planned upgrading of the Yarrow Stadium as such. However, we do both object strongly to paying for this work for the following reasons:

(1) We have already funded this facility in the past, we should not have to be doing it a second time. If the original designers were at fault in some way, then they should be persued for costs.

(2) We have not and do not use this facility. Those who do should be the ones paying, not the ratepayer. This is basically a rugby facility so let the fans, players and governing bodies meet the costs.

**Comment (field will expand as required)**

(3) Other less popular sporting groups pay for their own facilities e.g. motorsport, golf, thoroughbred racing etc. If the rugby fraternity can't afford or raise the funding then they should cut their cloth to suit.

(4) Attendance, income and operating cost forecasts for this type of facility are notoriously inaccurate and almost always overly optimistic, the Len Lye Centre being a classic example.

(5) There is probably not a single stadium in this country that is self-funding, almost all requiring local government support at some point to survive. A glaring example currently is the

Ordinary Meeting to hear submissions on the 2019/2020 Plan - List of Submissions received (526) and scanned copies  
Auckland Council bailout of Eden Park stadium to the tune of \$63 million.

Lets be realistic, we cant afford it so it shouldn't proceed and certainly not at the ratepayers' expense. We are not a bottomless pit for vanity projects, let alone those outside of our town.

I am a 36 year old construction worker who works full-time. I love the game of basketball and find there are limited indoor facilities to play here in Taranaki. The TSB Stadium closes at 5pm (once I am off of work) and the YMCA has one court that is often booked for other events outside of basketball. I was once a social worker and witness the positive outcomes of the youth through their involvement with positive peers, coaches, and mentors. Personally, I would advocate for a New Plymouth Community Centre that would be replete with a modern weight room, studio for a myriad of classes (yoga, pilates, martial arts), basketball courts, squash court, cardio area, conference

rooms, and rock climbing wall. I propose this would be a worthwhile investment into the mental and physical health of the community and future generations. It would be funded through membership costs and could possibly be subsidized to help lower-income families. Some form of child care provided by the facilities staff would be a benefit as well. Thank you for this consideration and may blessings continue forth for ourselves, community, and planet.

**Yarrow Stadium**

**What is your preferred option for the future of Yarrow Stadium?** 2: Repair stands and update facilities

**Comment (field will expand as required)**

Thank-you for the opportunity to provide a submission on Yarrow Stadium.

We support Option 2, the Taranaki Regional Councils preferred option; however we strongly encourage the Council to work with potential co-funding partners with the aim of enabling Option 4 to be exercised.

Like I am sure all New Zealanders we were shocked with the destruction, devastation and loss of life that resulted from the 2010 & 2011 Christchurch earthquakes. Few however could have predicted the long term impact that the quakes would have on the whole of New Zealand as building standards were reviewed and substantially modified to reflect and mitigate the enhanced risk we all face in this special place we live, Aotearoa, New Zealand. We find ourselves here therefore not from an issue of our own making, we need to make Yarrow Stadium is fit for purpose for the standards as we know it today.

Taranaki is indeed a place like no other. We have both been privileged to live here all our lives and as a result have enjoyed the benefits that this region has to offer. It was and continues to be a fantastic region to grow and nurture families, we have been the beneficiaries of the natural beauty and the added infrastructure that surrounds us and so to have our children. Since the days of the early settlers this region has been fortunate to have had numerous visionary leaders, entrepreneurs and philanthropists who together with our

communities have enabled us to build and develop parks, stadiums, theatres, walkways, galleries, and numerous other recreational facilities that make us the envy of other regions with a similar population. We want the future generations of whanau who choose to live work and play in this region to enjoy the benefits we have, to achieve this we need to continually invest and reinvest in our infrastructure to ensure Taranaki continues to be a place of choice for our families of the future.

It is disappointing that there is some talk in our community that an investment in the reinstatement and upgrading of Yarrow Stadium is an investment that will be of significant benefit to Taranaki Rugby but will be of precious little value and may well be to the detriment of other sporting codes. Over the years we have been privileged to attend a variety of 'events' at Yarrow Stadium or as it was formally known Rugby Park. These have included, but not limited to, Rugby (School, Club, Provincial, Super and All Blacks), Soccer (local and International) , Rugby League, Cricket, Military Tattoo's, Multi Ethnic Festivals, meetings, Conferences, and other celebratory events. Many of these events are etched in our memories and are often topics of conversation when the wider family get together and reminisce. Yarrow Stadium has and will continue to be a multi-purpose venue.

We need to reflect and be thankful of what we have been given and benefited from by our forefathers but most importantly we must continue to be visionary to take the region forward. We urge the Taranaki Regional Council to support the repair and upgrade of Yarrow Stadium.

**Comment (field will expand as required)** The stadium should be user-pays funded i.e. the cost to demolish, renovate etc is added to the ticket prices. It is a commercial venture and if it cannot be funded as such then it is not viable. It should not be propped up by ratepayers. The choice between the 8 options depends on which one is commercially viable through the users paying. The issue of South Taranaki ratepayers funding a venue in North Taranaki will, therefore, become irrelevant.

“The priority for the community and for ratepayer expenditure is community sport facilities which enable thousands of residents to be active every week as identified in the Regional Sports Facility Strategy. Consultation regarding proposed enhancements has not been transparent or community-wide, evidence around decisions has not been provided, and the enhancements do not align with the Strategy or the current processes followed by sports for facility development. We support that a repair of some scale needs to be undertaken but require more detail of what is included in the \$36m is required and what scale of stadium is appropriate for the region now and into the future. We do not support the \$19m of enhancements which should be accounted for within the existing Asset Management Plan and/or via the Regional Facility Strategy process if sport-related. We feel strongly that there is a great need for an equitable approach to facility improvements and funding across sports.

**I wish to present my submission personally at a hearing scheduled for 13-14 May.** No

**Yarrow Stadium**

**What is your preferred option for the future of Yarrow Stadium?** 1: Demolish both stands, replace them with grassed banks

In my view no money should be spent on Yarrow Stadium repairs or redevelopment at this stage. However, the only way to complete an online submission is to tick one of the Options present by the TRC. Hence, I have ticked the option that requires the least spend of \$6 million.

**Comment (field will expand as required)**

The TRC need to be far more transparent in the consultation process. Prior to any public consultation taking place an independent enquiry should be held to identify, for the ratepayers, exactly what the issues are with each of the stands, what was the cause of these issues, where does the responsibility for these problems lie and what legal remedies are available to recover some of the cost of getting these stands back into a usable state. This should be a detailed document, not the brief paragraph that we are being given presently.

Any Council that respects its ratepayers this should be looking to answer these questions in detail first and make this information publicly available. It is worth noting that Taranaki ratepayers have already paid tens of millions of dollars to the construction, upgrading and maintenance of Yarrow Stadium - perhaps a sum in the vicinity of \$30 million? And now, for reasons that most of us are unsure of, we are being asked to pay again.

Another problem that I have with this process is that the consultation document is weighted heavily in favour of the TRC's (and the TRFU's) preferred option – option 2. There's number of viable options that would have costs between \$6 million (Option 1 – Demolish Stands and grass banks) and \$55 million (Option 2 – Repair Stands and update). Why were these not presented as options for ratepayers to choose from? This should be a process that allows ratepayers to choose their preference not to for them to be led by the nose by the Regional Council to choose the TRC's preferred option 2.

From information that is now in the public arena it appears that the cost of repairing both Stands, without upgrades, is only \$36 million (although some interested ratepayers, who are well qualified to judge, consider even this sum to be excessive). But, why was this information not presented in the consultation document?

And, why are these upgrades even included when many (all?) of them are already budgeted for in the 2018 – 2028 (draft?) Yarrow Stadium Asset Management plan (which includes for \$15 million of capex spending on the Stadium)? This can only be seen as an opportunistic attempt to bring forward many of the upgrades that were planned to take place in the future.

What about the option of just repairing one Stand? In the consultation document the TRC's Q & A on this matter seems contradictory to me. On one hand the idea of repairing just one Stand is describe as, "simply not sensible", with the cost being not much different to Option 2. However, further down in the same paragraph, it says that the cost of the repair of each Stand is about the same. Surely that means that, without upgrades, demolishing one stand (half of \$6 million = \$3 million) and repairing the other stand (half of \$36 million = \$18 million) would cost \$21 million – very different to the cost of option 2.

What about the possibility of removing the roof of the Western Grandstand to assist in achieving a less costly repair of this Stand? That would leave us with just one covered Stand, however the TRC seem to think that it is imperative to pursue the two-covered-stands option.

Why is it, "not sensible", to look at a one-stand option – as is stated in the consultation document? Five of the 10 regional stadia that are noted in the Berl report have only one stand– and some of those are very basic stands. Furthermore, all of those with more than one stand (Yarrow Stadium excluded) serve populations far greater than Taranaki's.

Strangely, while there is a shortage of these lower cost options presented in the public consultation document, options five through to eight are provided as choices despite the fact that, with price tags of \$121 million to \$271 million, most would readily accept that they are way beyond the realms of possibility. Again, this strengthens the bias towards the TRC's preferred Option 2.

Despite being labelled as a multi purpose stadium, the bottom line is that it is not! It is predominantly used to host half a dozen provincial championship rugby game each year, each drawing average crowds of, perhaps, 6000 people – about 1500 of which are attending on complementary tickets – so about 4500 paying spectators. And, as is usually the case with stadium promotion economics the economic benefits to the region are vastly overstated – an, 'enjoyment value', of \$48 million from attending matches at Yarrow Stadium is almost laughable!

I recall how, prior to its construction, Yarrow Stadium was promoted as being a self-funding operation. This vision lasted for about 18 months into its operation – when it was handed to the ratepayers to pick up the tab. Ever since then the Stadium has been a black hole for large sums of ratepayers money and this looks set to continue at even greater levels should the spending of at least \$55 million go ahead. Actual payments towards this work will cost the Taranaki ratepayers over \$100 million over the next 25 years. Additionally, we can also expect tens of millions of further CAPEX expenditure, on the Stadium, over this period.

It's obscene that so much money should be spent for the benefit of so few! One can only wonder at the alternative ways in which this vast sum of money could be spent for a much more wide-spread benefit to Taranaki communities.

The bottom line; be transparent, have an independent enquiry and make public the exact details that have lead to the current situation, pursue any possible legal remedies, consult on a variety of less costly and less aspirational repair options – excluding upgrades – and then start spending ratepayers money as carefully as if it's your own. If all of this takes more time, then so be it! You owe it to the ratepayers of Taranaki.

Thank you for considering my submission.

There must be an element of fund raising for this project so that donators can get a tax credit rather being charged GST through our rates. If there were a fund raising process the money would come as apparently some people like rugby. The proposed (soccer)football fields at Bell Block are probably going to face a whole lot of council nonsense and lose some of their own land and incur a lot of costs, white the rugby community are probably going to get off scot-free. Personally I would rather it the other way around.

As far as traffic management is concerned I can't believe the Stadium don't have to deal with this problem, yet the Football people in BBK do. I find the traffic during the rugby games a right pain. I can't get to my favourite Chinese takeaways while there's rugby game on and other problems associated with the traffic and the lighting.

If there were however to be a rate payer funded rugby pitch with chairs around it, then it must be a multi use facility. By multiuse I mean it would have to have an indoor concert venue for 15000 or more people. I would also expect to see an end to people crying foul about the cost of the Len Lye centre and Govett Brewster. As strange as it may seem there is life outside rugby.

I would also like to know why the engineers aren't liable for this cluster %@&#.

**Yarrow Stadium**

**What is your preferred option for the future of Yarrow Stadium?** 1: Demolish both stands, replace them with grassed banks

I am in support of option 1 at this time as I am aware of the significant investment the community has already made into this code and not other codes facilities. Also water and public transport services are inadequate and failing.

Climate change mitigation and community development and resilience low carbon economy needs significant work so resources will need reprioritising.

**Comment (field will expand as required)** I am aware there is a good argument for strong community cultural and sporting facilities and activities to be supported by Council and had the above concerns been addressed or more broadly I would reconsider my choice. At this time this has not occurred.

I note "consultations" on transitions cost \$500.00 to attend which makes contributions from affected people prohibitively expensive and means only a few elite or business can attend.

These consultations, given the expense being unaffordable, therefore also do not have mandate either in my view.

My submission is below

20th April 2019  
Annual Plan Submission  
Chief Executive Taranaki Regional Council  
Stratford

Submission to Yarrow Stadium Proposal

**Comment (field will expand as required)**

I support a level of investment in Yarrow Stadium that the Taranaki Regional Council has with its preferred option two, however, the \$55 million should include funding from outside sources. If this funding is not obtained then scale back the project and I would support demolishing the west stand to make it uncovered seating.

I have not been able to find any readily available information in the consultation/ submission process about the proposed 'enhancements' which is a concern when you are talking about millions of dollars - I ask why this was not included. The information I have regarding enhancements may not be 100% correct.

I will go back to about the year 1998. New Plymouth District Council came to an agreement with the Taranaki Rugby Union that council will take ownership of Rugby Park (Yarrow Stadium) and develop the Park. NPDC at the time emphasized that Yarrow Stadium was

being built as a “Multi Sports Stadium”. The planning at the time was rushed with little to no consultation with other Taranaki sporting codes to find out their requirements as a Multi Sports Stadium. The planning was so bad that international cricket could not be played at Yarrow Stadium despite NZ Cricket requesting the ICC (International Cricket Council) give dispensation to Yarrow Stadium for international cricket to be played there because of ground size. The ICC even visited Yarrow and they still did not give the dispensation.

I was Chairman of Taranaki Cricket Association and match manager for most of the cricket games played at Yarrow. The Berl report mentions T20 cricket at Yarrow Stadium and the spectator figures presented in the report – 40,000 in the few games that cricket was played at Yarrow – a generous figure would be 6,000 – 8,000 spectators.

When you look at the history of Yarrow the only regular user is rugby. FIFA Football Under 20 World Cup and Rugby World Cup were ‘one off’ events, three NRL Rugby League games over 11 years and with the All Blacks there is no guarantee of matches in the future as there are many stadiums like Yarrow in NZ, therefore the funding stream becomes very shaky.

There is talk that some of the enhancements are for a new turf on the main ground and up-grading the lights on the towers. The money for these projects should have been budgeted for in the 5 or 10 year plan with life expectancy of the turf identified, so why are the Taranaki ratepayers being asked to fund these. Prudent financial management should have these items already budgeted for and money set aside. One of the disadvantages that Yarrow Stadium has - it cannot attract open air concerts because of the beautiful Bowl of Brooklands.

It has been well documented that sports crowds around New Zealand for regular fixtures are declining.

The Berl report states that for Taranaki NPC games 2003 – 2017 the average spectators at a NPC game were 6,000 – 8,000 spectators. There is no guarantee that Taranaki will be allocated an All Black test – the Berl report states that New Plymouth and Taranaki can argue strongly to be awarded a future test. I consider a number of other centres in New Zealand will also put a strong case to NZ Rugby. To spend \$55 million of ratepayers money in the ‘hope’ of getting an All Black test is, I consider irresponsible.

Taranaki Rugby Union previously had an administration office in Yarrow Stadium and now there is talk about building a new administration building and gym for the Taranaki Rugby Union. If this goes ahead then the Regional Council is becoming involved in the commercial area with a new building as a landlord which is not a core function of Council. Undertaking necessary repair work to Yarrow is one thing but to provide a new administration building and a gym is a slap in the face to other Taranaki sporting codes, some of whom have inadequate facilities available for their sport.

In a recent article about Eden Park it stated ‘you don’t build stadiums

Is the Yarrow repair work /rebuild about the requirements of Taranaki Rugby and the upgrade of some facilities (enhancements) to compete with present day businesses in New Plymouth? I have not seen any Business Review reports that identify that New Plymouth or the wider Taranaki area has a shortage of venues to host conferences, weddings etc.

The Berl report mentions that the use of the hospitality area for a range of events has improved in recent times and this is a positive. I do not support the Regional Council spending money in investing in a bigger hospitality area and competing with the private sector which is not your core business – how big is big enough!

If there is a lesser spend on enhancements then the cost to hire Yarrow should be less which could make the possibility of hiring Yarrow to other Taranaki sporting codes more affordable and attractive. This should be a key focus of the Regional Council – how can more sports be involved at Yarrow Stadium.

I ask the Regional Council to reconsider your preferred ‘option two’ because \$55 million is an obscene amount of Taranaki ratepayer’s money to spend for basically one sport – rugby. Taranaki ratepayers should not be expected to fund a new administration building and gym for rugby even if the money is raised from other sources - NO other sporting code has the Regional Council providing this type of facility for them.

Your proposal is to mortgage every New Plymouth District ratepayer for 25 years at \$87.40 per year which equates to \$2,185 over the 25 years.

I strongly recommend that TRC councillors pause and think - ‘are we moving too fast’. In 1998 the planning was rushed for rugby and did not include other sporting codes apart from ‘lip service’ and it appears we are going down the same path again. The \$55 million should include funding from outside sources.

I request that I speak to my submission.

I ask the Regional Council to reconsider your preferred ‘option two’ because \$55 million is an obscene amount of Taranaki ratepayer’s money to spend for basically one sport – rugby. Taranaki ratepayers should not be expected to fund a new administration building and gym for rugby even if the money is raised from other sources - NO other sporting code has the Regional Council providing this type of facility for them.

Your proposal is to mortgage every New Plymouth District ratepayer for 25 years at \$87.40 per year which equates to \$2,185 over the 25 years.

I strongly recommend that TRC councillors pause and think - ‘are we moving too fast’. In 1998 the planning was rushed for rugby and did not include other sporting codes apart from ‘lip service’ and it appears we are going down the same path again.

The \$55 million should include funding from outside sources.

I request that I speak to my submission.

Neil Sulzberger

**I wish to present my submission personally at a hearing scheduled for 13-14 May.** No

### Yarrow Stadium

**What is your preferred option for the future of Yarrow Stadium?** Other

**Comment (field will expand as required)** The priority for the community and for ratepayer expenditure is community sport facilities which enable thousands of residents to be active every week as identified in the Regional Sports Facility Strategy. Consultation regarding proposed enhancements has not been transparent or community-wide, evidence around decisions has not been provided, and the enhancements do not align with the Strategy or the current processes followed by sports for facility development. We support that a repair of some scale needs to be undertaken but require more detail of what is included in the \$36m is required and what scale of stadium is appropriate for the region now and into the future. We do not support the \$19m of enhancements which should be accounted for within the existing Asset Management Plan and/or via the Regional Facility Strategy process if sport-related. We feel strongly that there is a great need for an equitable approach to facility improvements and funding across sports.

### Local Government Funding Agency Scheme

**Tick if you also wish to submit on the Council's proposal to join the Local Government Funding Agency Scheme** No

**Yarrow Stadium**

**What is your preferred option for the future of Yarrow Stadium?** 1: Demolish both stands, replace them with grassed banks

**Comment (field will expand as required)** Due to the state of Taranaki Rugby and the lack of use over the last few years we believe the investment should be shared among some of the other codes.

The cost factor is simply too much, who is responsible for the current building design and lack of earthquake proofing?

Why would anyone want to "build" an additional "change room" and gym building - logistics tells us this is not conducive to the overall "plan" Why can this not be included in existing building - Is it in fact a change room/ gym at all or is it an additional administrative block? SURELY a more productive plan would be to relocate Sport Taranaki

Ordinary Meeting to hear submissions on the 2019/2020 Plan - List of Submissions received (526) and scanned copies to TSB Stadium ( as an example) or similar and use their facility as an admin block? If they are willing of course to relocate at all.  
I don't watch rugby, it seems the viewing public has declined?  
The sport we have been involved with had the foresight 20 years ago to build its own facility as otherwise the sport would not even exist in today's climate.  
Yes , we are a "rugby" nation, why can ticket sales not cover the "loan" to repair the venue? The cost of repair should be covered by the fans NOT the general public. Marketing the venue for other purposes, sponsors, concerts, etc should be utilised to offset the cost.
