### YARROW STADIUM

Which is your preferred option for the future of Yarrow Stadium?

Tick one of these boxes:

- ☐ Option 1: Demolish stands, grass banks
- ☒ Option 2: Repair stands and update facilities  
This is the Council's preferred option
- ☐ Option 3: Repair stands, add extra uncovered seating
- ☐ Option 4: Repair stands, add extra seating, add community facilities  
This is a potential preferred option if a co-funding partner emerges
- ☐ Option 5: New East Stand, extended West Stand, new South Terrace
- ☐ Option 6: New East Stand, extended West Stand, new North Stand, new South Terrace
- ☐ Option 7: New Stadium
- ☐ Option 8: Reuse stadium with roof

### COMMENTS

We need a Stadium in New Plymouth otherwise we become a second class town.

Repairs/improvements to Yarrow Stadium need to start ASAP.

The TST financial report for y/e 31/7/2018 shows trustees have borrowed \$4 million from a \$5 million TSB Bank finance facility and applied that to purchase yet more assets for the Stadium.

With no source of income other than grants from TRC, it will be ratepayers of TRC that will eventually have to repay that \$5 million TSB loan on top of the already \$55m proposed stadium "loan".

By creating this intermediate ownership entity (TST) on behalf of the real owners (TRC), scrutiny over expenditure decisions by Trustees is not part of any Annual Plan presented to ratepayers and doesn't require, ratepayer consultation. Furthermore, the TRC has placed a \$55million ceiling on its borrowing, and because of the separation of control, the TST's borrowing will not count as breaching the \$55m TRC limitation, despite TRC being ultimately liable to repay TSB if TST defaults.

Council should spell out why there is any need for TST , as in reality TRC owns the assets and is totally responsible for TST liabilities.

#### **9. Waitara Endowment Lands.**

The Annual Plan has estimated \$8 revenue from the council's share of the above, when the leaseholders pay to freehold their leased property. There was no reference to this in the LTP.

The prospect of receiving all of this during 2019-20 year is impractical and grossly overstated.

Offsetting the above is Expenditure (not detailed) of \$8 million. It is possible that during y/e 2020 some costs will have been incurred in setting up various committees....but in the thousands, not millions!

Incidentally, since the level of extra expenditure reported is "significant" in terms of the reporting requirements for AP and LTP, under the Local Govt Act this requires more specific and meaningful disclosure within the AP.

Council needs to make appropriate corrections to the draft plan

I wish to attend and speak in support of these submissions

Jeffrey Ward

127 Mawhitiwhiti Rd

Normanby.

23/ April 2019

A reduction in that dividend by say 50%, would need to be recovered by a 38% increase in the present day level of rates.

Alternative cost 'cutting savings' will focus on "non-core" regional council functions, so caution needs to be exercised now before committing ratepayers funding into unnecessary long term non-core function projects (e.g. capital extensions at Yarrow Stadium).

## **6. DANGEROUS PRECEDENT.**

By originally focussing on the requirements of Rugby at Yarrow Stadium, the stadium is now incapable of meeting international and national cricket standards, lost its cycle track (costly relocation elsewhere), and owing to noise restrictions (and an alternative Brooklands venue) cant host huge VISITOR ATTRACTING crowds (exceeding 30,000 ) at Rock & Pop Star concerts. These are really major money earners for stadiums elsewhere and for the local economy.

By going beyond its original mandate and actually channelling rates into subsidising rugby events; by providing local (cash strapped) TRFU with facilities/lounge/ secondary ground upgrades/lighting/ administration offices at nil or little cost, is it any wonder the other sporting codes are crying foul!

Those other codes do their own fund raising and use voluntary labour to provide for those sorts of necessary facilities which they own, often located land leased from their local council.

Any further funding of non-regional benefit type infrastructure, must not be supported from Regional Council funds. Otherwise expect a visit from Football, Equestrian, Hockey, Speedway, Bowls, etc, all looking for major funding for their facilities.

TRC (and ratepayer funding support) for "homegrown" ( natural or artificial) attractions that will pull in a high percentage of tourists, is good for Taranaki economy and ratepayer resources should be more focussed on that as the GDP/trickle-down effect is far greater.

## **7. FINANCIAL DOCUMENT/ REPORTS QUERIED.**

The Statement of Financial performance 2019-20 (AP & LTAP) doesn't disclose the council's investment in Taranaki Stadium Trust (TST) as it has to for Council Controlled Organisations (eg. Port Taranaki, etc)

Instead the AP treats the money to be "loaned" to TST for the stadium fix-up as an asset (debt owing by TST to TRC) and as a liability (loan drawn down by TRC from Bank or other provider) as off-set. As at 31 July 2018 TST had a net equity value of \$11.2 million after writing off \$15.5 million impairment value relating to the buildings. That value is not disclosed in either plan.

TST has no direct income source from which to repay TRC for any loan borrowings, except for grants/ratepayer contributions from TRC. All income from stadium hires, leases etc goes directly to NPDC. Therefore for the council to show the proposed loans to TST as an asset is dishonest. There is no prospect of the "loan" being repaid, except from the sale of the land and useful structures (which legally is difficult because of the Reserve status of the land).

I will be seeking a comment from the Auditor-General in that regard.

## **8. Taranaki Stadium Trust (TST) Unaccountable to Ratepayers**

The TST is controlled by two trustees (Mr M Neild a council employee and one elected Councillor)

***What if Yarrow Stadium didn't hold that NZRFU event and instead 4000 Taranakians went to a big city to see the play?***

They would spend 1 million on accommodation, meals , etc in that big city.

They would pay \$300 per seat = 1.2m . Total economic value taken from Taranaki = \$2.2million

The remaining 12000 Taranaki rugby fans would stay at home and watch the game live on TV. They will retain in their pocket \$3.6million, available for discretionary spending, most of which would be spent on alternative sports, recreation, goods and services within Taranaki province.

***TARANAKI ECONOMY BENEFITS by \$1.4 million\****

- Economic "trickle down" (multiplier) benefit is applicable but has been ignored because the same magnitude of multiplier effect applies to both economies outside or inside Taranaki,

**4. RATING IMPACT into the future.**

TOTAL RATES for yr 2019-20 per Annual Plan (AP) = \$14.172 million

TOTAL RATES for yr 2019-20 per Long Term (LTP) = \$10.532 million

Increase in rates per Draft AP 2019-20 = \$ 3.640 Million or by 34.56%

\$55m Yarrow stadium EQ repair & enhancemt = \$ 3.373 Million

Other Expenses in AP = \$ 0.267 m

By Restricting Yarrow EQ repair to Estimated \$36m

***Reduces Loan borrowing by \$19m & rates by = \$ 1.165m pa. less or by 11.1%***

NP Ratepayer Target Rate lowers to \$67.40 per household

NP Ratepayer Target Rate lowers to \$45.32 per household

Whilst the annual household saving doesn't appear to be very significant, the target rate goes on for at least 25 years ( SAVINGS IN RATES totalling over \$\$29 million) .

***Because the Taranaki Stadium Trust has no prospective income sources from which to repay TRC loan used for EQ strengthening, ratepayers will be paying into the future for as long as the stadium remains standing.***

**5. PORT TARANAKI DIVIDENDS**

As a major source of income available to lessen rating levies, the annual dividend projected into the future is expected to be \$8 million p.a over the next 10 years.

The port's most lucrative sources of income at present are from shipping petro-chemicals and logs to China. Both of these major income earners are scheduled to be seriously curtailed over the coming decade. Petro-chemicals by climate-change initiatives (Govt policy and public switching) and forestry, due to unavailability of harvestable trees.

**By excluding the \$19 million for 'Enhancements' Taranaki Regional ratepayers will save not less than \$1.14million p.a. for next 25 years (and beyond).**

**STRATFORD DISTRICT & SOUTH TARANAKI DISTRICT** ratepayers are according to proposed TRC rating of those areas, expected to pay towards those "Enhancements" costing at least \$19million.

It is right and proper for those district's ratepayers to contribute to the cost of bringing the original stadium & facilities up to a standard that complies with the EQ safety code, but nothing more!

Those Councils need to refuse to levy their ratepayer's for any expenditure beyond the cost of EQ strengthening.

***That saving to Stratford DC is \$235,986 and to South Taranaki it is \$698,833***

To attract International Rugby games to Taranaki, NZRFU & TRFU talked up their needs, before they would consider staging an All Blacks game or International game in Taranaki. As a consequence Yarrow Stadium is an 'over-build' to cater for solely those alleged/unnecessary rugby "requirements". Nelson's Trafalgar Park with amenities far less extensive and far less expensive been allocated All Blacks and International rugby games. So too have other regions outside the four main centres, with facilities of a lower standard than Yarrow.

This overbuilt and under-utilised stadium has become an ever increasing burden on ratepayers, yet the TRC wants to add more seats, spruce up secondary surrounding grounds and lights, add another gymnasium, all for the benefit of Rugby, or add to the conference facilities, that only benefit NPDC ratepayers & citizens economically, not contributing Central & Southern councils.

### **3. No Economic Benefits from Yarrow hosting All Black Games.**

The BERL reports provide a series of examples of the "economic" benefits accruing to the province from investing in facilities & hosting international rugby, or even test matches.

Although, the earnings from attendances at Yarrow for these professional rugby NZRFU events is not publicly available, well considered assumptions have to be used. It is reasonable to expect that more than 60 percent of the ticket price for those games will be money flowing out of the province to NZRFU. By gleaned information from BERLs reports we are told that Visitors (from overseas and rest of NZ) to these games bring in \$250 each to benefit Taranaki's economy (actually mostly to benefit New Plymouth). As an example, from a total attendance of 20,000, about 20% will be visitors (4000 people). Those reported visitor numbers appear overgenerous; I wonder if NP and nearby towns could actually accommodate that number in hotels and motels, most of which would normally already have other visitors occupying at least half of their available beds. So 4000 visitors will bring in \$1million. If admission tickets cost on average \$300, then gate takings from 20000 will be \$6 million. Assume 40% of gate is paid for use of facilities at Yarrow (all of which goes to NP District Council...(none goes to the stadium owners), so Taranaki gets to benefit with GDP of \$3.4million.

Money flow to outside Taranaki is \$3.6million (60% of ticket sales)

TARANKI ECONOMY SUFFERS A LOSS of \$0.2million\*

## **Submission on 2019-20 Annual Plan**

### **To TRC by email.**

#### **1. Consultation Process Biased.**

Nowhere on the online consultation form is a provision for ANY OTHER (Tick box) suggestion.

**A “cost to strengthen the EXISTING structures ONLY” option should have been provided.**

Nowhere within the Annual Plan/ consultation, nor Council media statements, is the \$36 million needed to reinstate the existing facilities to back to safe for public use, clearly mentioned.

It has taken scrutiny of plans by Mr Hugh Barnes to expose that through media, in a very restricted timeframe before submissions closed. One has to wonder if councillors were ever told this, or maybe their blinkered bias in favour of rugby, caused them to brush that sensible alternative aside.

It appears that BERL were never asked to do an economic evaluation on that alternative either.

Clearly, ‘Option One’ is not a serious choice, being a retrograde step back to the old Rugby Park, and even worse.

All the remaining options on the submission form are serious money gobblers and some just dreaming. Only centres of very large populations can expect to fund expensive stadiums catering for more than 16-20,000 attendees.

Yarrow Stadium does not need any more seating. It already has twice as many covered stand seats than is required, but ratepayers are stuck with ongoing maintenance and financing costs of this overbuild. That is due to increasing televised/streamed live events, and the multiplicity of alternative entertainment options available. Already evidence from Westpac Stadium proves that, with even major sporting events failing to fill more than a quarter of seats available. In Rugby’s case, there are far too many major rugby games scheduled, many running concurrently against major summer sporting codes events. Patrons of Rugby are choosing to watch world -wide rugby on electronic media, or go to places to see a variety of other sports. Live televised sport is a bigger revenue earner for the sport than attendance at stadiums will ever be.

In a way it is a pity that an earthquake did not damage the stadium grandstands, because at least there would be an insurance pay-out and a RATIONAL and realistic choice would then have been possible, by NOT to rebuilding for 8000 covered seats, when half that number is all that is needed.

#### **2. Who Benefits from the extra \$19 Million Upgrade?**

Whilst public support from the whole of Taranaki rating base was agreed in 2002 for the construction of Yarrow Stadium as a multi-use outdoor sports & entertainment venue, the subsequent upgrades for a Rugby World Cup (a “once in a generation” happening), the proposed \$19 million PLUS! extensions and upgrades to lounge areas, added seating, proposed gymnasium, no2 ground improvements with upgraded lighting, extended sealing of car parking & embankment areas are all **PRIMARILY FOR THE BENEFIT OF:-**

- RUGBY (more particularly Elite/Professional rugby events)
- NP District Council to obtain more revenue from hires of indoor facilities, or to offset spending at alternative NPDC operated premises.

## YARROW STADIUM

Which is your preferred option for the future of Yarrow Stadium?

Tick one of these boxes:

- ☐ Option 1: Demolish stands, grass banks
- ☐ Option 2: Repair stands and update facilities  
*This is the Council's preferred option*
- ☐ Option 3: Repair stands, add extra uncovered seating
- ☐ Option 4: Repair stands, add extra seating, add community facilities  
*This is a potential preferred option if a co-funding partner emerges*
- ☐ Option 5: New East Stand, extended West Stand, new South Terrace
- ☐ Option 6: New East Stand, extended West Stand, new North Stand, new South Terrace
- ☐ Option 7: New Stadium
- ☐ Option 8: New Stadium with roof

## COMMENTS

The Spotswood Volleyball Club (Inc) does NOT prefer any of the 8 options detailed above. There are other options that the TRC has chosen not to suggest. These are:-

- \* (a) Demolish the stands and build a new West stand to seat 5,000
- (b) Repair the current stands with no updated facilities \$33m
- (c) Review in 5-10 years the need or necessity to update facilities \$23m
- \* The SVC preference is to option (a)

## **SUBMISSION COMMENTS FROM SPOTSWOOD VOLLEYBALL LCUB (Inc)**

### **PREAMBLE:**

In considering my submission, we have identified the 3 major points in the Taranaki Regional Council Empowering Act 2001 referring to Rugby Park (now Yarrows Stadium) that we wish to highlight:-

1. 3 Interpretation- specified project (a) the development of a stadium for use for different kinds of events at Rugby Park, N.P.
2. 4 Purposes of Act:- (d) to enable the Council to borrow from its own funds for the development of a stadium at Rugby Park, N.P.
3. 5 Powers of Council (1) (a) for the recreation or cultural well-being of the residents and ratepayers of the Taranaki region

### **:RECENT DEVELOPMENT:**

It must be noted that since 2000, \$20m has already been spent on developing Yarrows stadium and obviously due to poor sub-standard engineering research (for both upgrades) the facility does not meet the Health & Safety standards. Probably much of this can be attributed to the haste to get the initial development done so that the TRFU could apply to the NZRU for a World Cup game in 2011.

From 2004-2018, this facility has been considerably underutilized. Very few major events have been held and those that have have all been one-offs. There is no guarantee that the venue will secure such events in the future. When Palmerston North considered looking into upgrading their venue for All Black test matches, the NZRU told them that when considering all future test matches priority would be given to the four main centres.

It is a myth to suggest that Yarrows stadium is internationally considered as an iconic stadium. This status can only be attributed to both Pukekura Park and the Bowl of Brooklands- the latter regularly hosting major musical events drawing up to 18,000 spectators(despite weather factors) and no corporate facilities, etc. Most patrons actually sit on the grass banks.

### **ALTERNATIVE OPTION:**

It is somewhat disturbing and disappointing that the TRC has chosen not to offer more alternative options between options 1 and 2. Clearly there are 3 others.

1. Demolish both stands and rebuild the western covered stand to seat up to 5,000 spectators.
2. Demolish both stands and rebuild them \$33m – with no added gymnasium or upgrading.
3. Do no.1 above, and wait 5-10 years re-assess the useage and future potential and look at the upgrading possibilities \$22m

The most practicable and financially viable option would be for the TRC to demolish both stands and rebuild the western covered stand capable of seating up to 5,000 people.

This option would allow the majority of the TRU activities to resume.

Local club and IPC games could be played that on average attract that number of spectators. This option would cost less than \$15m.

A new eastern stand and upgrading facilities are matters that can be researched in 5-10 years time.

### **:SUPPORTING MATERIAL:**

Since the 1960's, there have been significant changes in the sporting and recreational pursuits of New Zealanders. The three main factors for this have been:-

- a. the increase in indoor facilities
- b. the sporting preferences of immigrants
- c. the impact of different sports on television

With New Zealand's small population there is limited funding available for all sports codes to have the infrastructure they need to meet their basic requirements.

Every sport is entitled to a fair share of the funds that are available.

Various sporting codes in North Taranaki have since 2006 regularly asked the NPDC to upgrade facilities as they cannot cater for their increasing numbers of participants. Mainly due to public pressure in trying to limit rate increases the NPDC has continually put the upgrading of these facilities on hold.

Collectively Badminton, Basketball, Football, Hockey, Netball, and Volleyball have over 20,000 registered players in Taranaki whose health and well-being has been impacted by the lack of facilities.

Our Club has struggled to survive because of the lack of indoor stadium space in New Plymouth. The sport of Volleyball has never been able to cater for players under the age of 13 simply because there are no venues available. As stated above we have continually lobbied the NPDC but they have decided to re-assess the situation in 2027. Participation wise, Volleyball is now the 5th biggest sport in secondary schools in New Zealand.

Like Basketball, Volleyball can no longer host any major regional or national events because of the lack of court space available in North Taranaki. We need to have 30 courts to host the NZSS senior championships.

Should the TRC decide to go ahead with their favoured option 2 for \$55m there will be two major impacts on other sporting codes.

- a. funding sourced by the TRC could see little left for these codes to access
- b. with an increase in the TRC rate, it is unlikely that the NPDC will ever consider upgrading their facilities and imposing yet another increase in rates.

Clearly, the Taranaki Regional Council should NOT be involved in commercial enterprises such as a sporting stadium. It is well known that such facilities are not economically sustainable, they all run at financial losses and need to be propped-up.

Common sense needs to prevail.

Demographically, we also have an aging population and need to consider what the impact will be on continually adding to the cost of their rates.

If the TRFU wants a venue with all the "bells and whistles" to host major All Black matches then in conjunction with the NZRU they should raise the funding required. The NZRU should also be asked to put in writing what test matches they would allocate/guarantee over the next 10 years.

Lawn Bowls, Croquet, Golf, Hockey, Squash, Surf Life Saving, Tennis, Yachting, etc are all examples of sporting codes that have had to raise their own funds to provide facilities for their members and for national and international competitions. Every year they have to raise additional funding for upkeep and maintenance of their facilities.

Considering all of the pros and cons considering the Yarrows stadium project we have come to the conclusion that we cannot support any of the TRC options.

This decision is based on the importance of a "bells and whistles" stand alone facility, the financial commitment required, what possible useage the venue would receive, the impact on all other sporting codes, and the financial impact on the regional ratepayers.

The Spotswood Volleyball Club (Inc) suggests that the TRC reassess the current preferred option and consider the following option:-

**Demolish both stands and rebuild the western covered stand to seat up to 5,000 spectators.**

- ☐ Option 8: New Stadium with roof

## COMMENTS

I CANNOT SUPPORT ANY OF THE 8  
OPTIONS AS THERE ARE OTHERS THAT  
SHOULD HAVE BEEN SUGGESTED BUT THE TRC  
HAS CHOSEN NOT TO. THE OTHER OPTIONS ARE

- \* (a) Demolish the stands and build a new West stand to seat 5,000.
- (b) Repair the current stands with NO updated facilities \$33m.
- (c) Review in 5-10 years the need or necessity to update facilities.
- \* I personally prefer option (a).

## **SUBMISSION COMMENTS FROM PHIL GAYTON ONZM.**

### **PREAMBLE:**

I wish to start by saying that this submission is not to be considered an anti-rugby document. In fact my father was heavily involved as a member of the Tukapa RFC who along with members of the Star RFC who developed the majority of the Rugby Park complex and gifted the 8 acres to the Taranaki RFU in 1957, plus a cheque for 2,553 pounds (\$5106 approximately \$½ million at today's value. See attachment.

I also have a very close relative (Ron Jarden) who was a legendary All Black in the 1950's and I played the game from 1955-1972 and in 1970 played representative rugby for the Taranaki Junior team

In considering my submission, I have identified the 3 major points in the Taranaki Regional Council Empowering Act 2001 referring to Rugby Park (now Yarrows Stadium) that I wish to highlight:-

1. 3 Interpretation- specified project (a) the development of a stadium for use for different kinds of events at Rugby Park, N.P.
2. 4 Purposes of Act:- (d) to enable the Council to borrow from its own funds for the development of a stadium at Rugby Park, N.P.
3. 5 Powers of Council (1) (a) for the recreation or cultural well-being of the residents and ratepayers of the Taranaki region

### **RECENT DEVELOPMENT:**

It must be noted that since 2000, \$20m has already been spent on developing Yarrows stadium and obviously due to poor sub-standard engineering research (for both upgrades) the facility does not meet the Health & Safety standards. Probably much of this can be attributed to the haste to get the initial development done so that the TRFU could apply to the NZRU for a World Cup game in 2011.

From 2004-2018, this facility has been considerably underutilized. Very few major events have been held and those that have have all been one-offs. I suggest that the TRC reassess the current preferred option and consider the following option:-

**Demolish both stands and rebuild the western covered stand to seat up to 5,000 spectators.**

# PROPERTY DEVELOPERS: TUKAPA'S GIFT TO THE TRFU

As mentioned elsewhere in this Booklet, for the first forty years of Tukapa's existence, the TRFU lacked a dedicated home venue of their own for representative fixtures and important club games. Rugby Park (today's Yarrow Stadium) was not developed as a venue until 1937 and when it did open it contained only what are now the Number 1 and Number 2 fields. Significantly one of the options that the TRFU looked at before deciding to locate at Rugby Park was nearby Sanders Park. Talks were held with Tukapa about the TRFU taking over Sanders Park but, having just relocated there from Western Park a few years earlier, Tukapa told the TRFU "no thanks".

When it did open in May of 1937, the first match played on Rugby Park was a club game between Tukapa and Stratford, with the first to score a try on the new venue being Tukapa man Bill Sanger. Final score in the match was a six all draw. Lack of money held up further development of the Park and in 1945 the TRFU offered the Park to the New Plymouth Borough Council for them to take over and run. This offer was politely declined, although 60 years later the complex eventually did pass into the control of NPDC.

During the late 1940's various local fundraising efforts helped the TRFU pay off its original debt incurred in developing Rugby Park but expansion of the Park remained on hold. Fields 3 and 4 at Yarrow Stadium, as they are now, remained on the wish-list until the two neighbouring clubs, Tukapa and Star, stepped up with an incredibly generous donation, long since forgotten about by most of the local rugby public.

The following extract from the 75th Tukapa Jubilee Booklet outlines the details:

In 1950 when the Taranaki Rugby Union was not in a position to do so, the Tukapa and Star Rugby Clubs combined their efforts to purchase an area of 11.5 acres

of land to the south of Rugby Park for the purpose of providing additional playing fields. After making the purchase, a control committee from the two clubs, with the assistance of the Rugby Park Committee, agreed on a long-term plan for the development. This plan provided for the sale of approximately one acre to the Education Department for the extension of the Westtown School grounds and the sale of approximately 2.5 acres fronting Clawton Street for new housing. The remaining area of just over eight acres was sufficient for two full-sized rugby grounds running east-west behind the existing No. 1 and 2 grounds, together with an additional entrance for spectators from Clawton Street.

The formation and selling off of the Clawton Street sections completed the first phase of the Scheme and, on 29 October 1957, the Star and Tukapa Control Committee wrote to the Taranaki Rugby Union offering them the gift of 8 acres of land plus the profit from the earlier sale of surplus land. The following year the Tukapa Club in association with Star, at a special gathering of representatives of the Clubs and the Rugby Union, handed over the title to the land together with a cheque for £2,553 (\$5106 or \$434,010 at today's value).

Records from publications of the day tell us that this gift was lauded at the time as being un-precedented in NZ rugby history. One of the conditions of the donation was that the Tukapa Club be granted the right to erect a gymnasium or other building on the gifted land if and when requested by the Club. This stipulation was duly agreed to by the Rugby Park Committee with the grateful TRFU then deciding to name the two new grounds parallel to Clawton Street as the Tukapa and Star fields. For some years afterwards the touchline flags used on each of these two grounds bore the colours of the respective benefactor clubs.

Since those far-off days the ownership and control of Rugby Park has passed on firstly to a Trust that oversaw the rebuilding of the Park to create Yarrow Stadium and then, more recently, the whole complex was vested into the hands of the New Plymouth District Council with the TRFU remaining on site as a tenant of NPDC.

TRC Annual Plan Yarrow Stadium submission.

Lloyd & Jo Morgan  
118 Upper Ngariki Road  
RD34 Rahotu 4684  
23/4/19

Dear Councillors,

Thank you for the opportunity to submit re the Yarrow Stadium repair options.

Yarrow Stadium should be reinstated to a viable working condition.

However the proposed repair should be reviewed, perhaps by a group of local engineers, to perhaps find a more cost effective solution. There is significant expertise over a range of this project scope available within the region that does not appear to have been consulted. Yarrow Stadium is a regional asset and contributes to the general wellbeing of the province, but it is not the only facility that does so. The empowering act allows TRC to support the facility, but it would be a gross exaggeration to see the role including driving economic activity which appears to be part of the justification of the repair.

Of significant concern is the lack of transparency and the paucity of information supplied when outlining the proposal. This has resulted in heightened concern, and justifiably higher level of scrutiny, particularly when the financial implications were identified. Developing a sports facility into a social/convention centre with ratepayer funding would appear an unlikely option for public support.

The high cost of the repair/upgrade would inevitably result in ratepayer backlash, probably unwittingly on many of the regions remaining sports codes. A review of the regions sports facilities has been completed recently, and some codes are seriously compromised by a lack of basic amenities, yet this proposal appeases a professional, in some ways elitist, albeit popular sports requirements, yet potentially compromises many others.

Developing an asset with a wider potential range of users, as the original proposal was marketed would be a more satisfactory outcome.

The economic report supplied highlights the historic significance of the stadium but fails to acknowledge the declining support for much of our traditional codes in the modern era. The financial performance of many single code use stadiums nationally is poor, and exacerbated for many located in residential areas due to the lack of flexibility available.

This project is flawed in both scope and scale, despite the need and general acceptance to see the stadium returned to useable condition. I would stress that this is an inappropriate, or even deceitful use of ratepayer funds and legislative process.

Would it not be prudent to have some form of insurance cover for the stadium, or business interruption. More importantly has there been investigation of potential cost recovery/ damages from the designer, contractor(s) or the certification thereof.

Thank you for considering this submission.

Lloyd Morgan  
STDC ratepayer  
Rahotu.

### YOUR SUBMISSION

Note that your submission and any information you supply as part of it is considered public information and will be available in reports and documents relating to this process and will be published on our website, [www.trc.govt.nz](http://www.trc.govt.nz).

### YARROW STADIUM

Which is your preferred option for the future of Yarrow Stadium?

Tick one of these boxes:

- ☐ Option 1: Demolish stands, grass bank
- ☒ Option 2: Repair stands and update facilities  
*This is the Council's preferred option*
- ☐ Option 3: Repair stands, add extra uncovered seating
- ☐ Option 4: Repair stands, add extra seating, add community facilities  
*This is a potential preferred option if a co-funding partner emerges*
- ☐ Option 5: New East Stand, extended West Stand, new South Terrace
- ☐ Option 6: New East Stand, extended West Stand, new North Stand, new South Terrace
- ☐ Option 7: New Stadium
- ☐ Option 8: New Stadium, wholly owned

### COMMENTS

The failure to do this as a minimum will affect the traditional nature and core strength of Taranaki as a region. Our collective strength comes from our traditional activities and industries. It is paramount to our special nature and its continuance that we repair these grandstands as originally intended to restore our mana & standing in this nation.

**I wish to present my submission personally at a hearing scheduled for 13-14 May.** No

**Yarrow Stadium**

**What is your preferred option for the future of Yarrow Stadium?** Other

**Comment (field will expand as required)**

Many thanks for the opportunity to review this consultation document. Certainly, some comprehensive work has been completed to enable your preferred option to be selected and released for wider public consultation.

I have selected 'Other' in my feedback given that \$55M is a significant investment into a facility that generally only caters for three sporting codes (as referenced on page 21). It does appear through your report that there has been little, or no interaction with other sporting codes who may use this facility other than NZ Cricket. Given the success and positive impacts of centralised multi-sport 'hubs' across the country (and those even closer to home in Stratford, Hawera & Opunake), I feel it remiss to have not engaged deeper into our local sporting organisations.

I would like for wider consultation and feedback forums within these local organisations. For many years there have been plans in circulation through various forums regarding the centralisation of netball, rugby, football volleyball, badminton and basketball into the area in and around the existing racecourse and TSB Stadium. We have a real opportunity to turn these tentative plans into reality and matching other regions whom enjoy such facilities. Yes, I acknowledge the cost of such a project would be significantly greater than a 'patch n repair' philosophy you are recommending for the existing Yarrow Stadium, but this is a real chance to have a facility that is 'Like No Other'

Please challenge the status quo and be willing to look beyond what

Ordinary Meeting to hear submissions on the 2019/2020 Plan - List of Submissions received (526) and scanned copies  
does appear to be a short horizon for the future of our regions sporting  
facilities.

**Comment (field will expand as required)**

"The priority for the community and for ratepayer expenditure is community sport facilities which enable thousands of residents to be active every week as identified in the Regional Sports Facility Strategy. Consultation regarding proposed enhancements has not been transparent or community-wide, evidence around decisions has not been provided, and the enhancements do not align with the Strategy or the current processes followed by sports for facility development. We support that a repair of some scale needs to be undertaken but require more detail of what is included in the \$36m is required and what scale of stadium is appropriate for the region now and into the future. We do not support the \$19m of enhancements which should be accounted for within the existing Asset Management Plan and/or via the Regional Facility Strategy process if sport-related. We feel strongly that there is a great need for an equitable approach to facility improvements and funding across sports."

### YARROW STADIUM

Which is your preferred option for the future of Yarrow Stadium?

Tick one of these boxes:

- ☐ Option 1: Demolish stands, grass park
- ☐ Option 2: Repair stands and upgrade facilities  
*This is the Council's preferred option*
- ☐ Option 3: Repair stands, add extra uncovered seating
- ☒ Option 4: Repair stands, add extra seating, add community facilities  
*This is a potential preferred option if a co-funding partner emerges*
- ☐ Option 5: New East Stand, extended West Stand, new South Terrace
- ☐ Option 6: New East Stand, extended West Stand, new North Stand, new South Terrace
- ☐ Option 7: New Stadium
- ☐ Option 8: New Stadium with roof

### COMMENTS

To make all this viable I believe that we must look beyond rugby and now the opportunity presents itself to establish a multi use events centre i.e. Rugby, Cricket, League, Athletics, Culture events. Remember the days of the Military Tattoo. This is a magnificent venue lets be proactive this is a golden opportunity

### COMMENTS

It just needs to happen otherwise Rugby etc in Taranaki won't be as we know it once it's gone, we won't get it back to what it was, urgent to address this issue.

Phone 06 757 8755 (Day)  
Email ask.selwyn@xtra.co.nz

Thank you for the opportunity to respond to eight redevelopment options.

### ***We can do better than this***

Except for infrequent events the proposed rebuild of the Yarrow Stadium is too big.

Worse, the current Stadium is in the wrong place.

### ***The Berl Report forms the basis of all assumptions***

The Berl Report attempts to quantify the unquantifiable. Reports of this nature are suspicious because they run the risk of being self-serving. That is they can be written to support the sponsors view. Berl has probably done their best to polish the flimsy records presented to them for utilising the entertainment areas. No matter how these are presented the intention to increase community use has a hollow ring. Option 4 suggests an extensive catering upgrade with hope an outside funding partner can be found. This option is looking for an extra 14 million dollars. This submission does not support Option 4

Further, the Berl Report (October 2018) points to attendance of around one million over the 15 year period between 2003 and 2017, on average that's 5,500 per month. This figure may have validity being based on ticket or turngate data; it includes major events such as the Rugby World Cup, All Black tests and so forth. Further, it includes other sporting codes and 'non-sport' spectacles. Due to field size or other competing events within or outside Taranaki this attendance could have been higher no matter where in New Plymouth the stadium is situated. Overall, some form of stadium is worth having.

### ***Reasons for a redesign***

Like most stadia Yarrow Stadium remains underused for most of the year. It is hard to get a sense of excitement and involvement when only 6,000 to 8,000 ardent fans are spread about a stadium capable of seating fifteen to twenty five thousand. From experience most games or events have even fewer attendees. A more intimate atmosphere and hence smaller stadium would serve Taranaki better.

The proposed idea of 'build it and they will come' is a dangerous notion. Such ideas fail to take into account the high cost of promotion and servicing an unused facility once the first wave of excitement is over. Running a year-by-year campaign to bolster use has not been factored into the running costs, let alone maintenance and so forth. As it stands the New Plymouth District Council will be liable for the greater proportion of these insidious expenses. Any new stadium must offer something for everyone. As designed the new plan does not.

The old adage of 'Rugby, Racing and Beer' no longer cuts it.

The world of sport and entertainment has changed.

Participation of horse racing is in decline and just like rugby other codes look for handouts and community support; support that's no longer there. The music has changed and so have the drinks.

Different sporting codes are gaining a greater following at the expense of the traditional. In particular contact sports are in decline, even though rule changes have attempted to make sport less injury 'free'. While rugby is still considered by many as New Zealand's national sport fewer are playing the game. Professional sport is costly; player's remuneration, trainers, equipment, travel and accommodation are examples. Expectations of services and facilities are higher; it seems some sports are cannibalising their support base and it's fast becoming the problem of 'who pays'? The cost of attending and participating in games is a constraining factor; discretionary income is shrinking. In other words someone must pay for the high overheads from a more expensive re-build.

As councillors you already know people are watching sport in differing ways and have been for years. The digital age has and will change future involvement so arenas for sport need adjustment; new thinking, layout and smaller stadiums. Regretfully players need to adjust to playing at a high level with diminished crowd involvement. Most sports are gravitating towards entertainment for gambling purposes – no gambling no funding. In other words it's not traditional sport anymore. Something has to change but nothing seems to change. As offered the design presented simply replaces the same with the same! It runs the risk of being constrained and condemned by this design forever.

### ***Design modification***

If you are to continue with the current site at Maratahu Street indefinitely or hopefully as a temporary measure until better alternatives are found then a modified Option 1 is best.

With such a modification you would remove the roof from the West Stand (Yarrow Stand) complete the geo-tech work to stabilise the seating, protect the food and camera positions and disabled access. You should get on and do this immediately. Tents or caravans can supply any additional accommodation while you sort things out.

You should remove the East Stand but keep the changing areas. Further, replace with a temporary stand similar to that in Christchurch – it hasn't done the Crusaders any harm and has already lasted for years while they also vie for the optimum solution. This solution will have all the cost and design benefits a new green-field site can offer. We must do the same.

With reluctance this submission can only back Option 1 with modification.

Regrettably it's back to the drawing board and you should vote \$500,000 for further design and investigation into alternatives using a green-field site

A design competition may prove fruitful.

☐ Option 8: New Stadium with roof

Option 2 is our second choice

### COMMENTS

I represent R & R McGregor,  
N & G Mauldes, R & D Mills  
J & A Harold.

We have been season ticket holders for over 15 years and feel that the actions placed on the TRFU & TRC are totally over the top. However we now

Ordinary Meeting to hear submissions on the 2019/2020 Plan - List of Submissions received (526) and scanned copies

## ADDITIONAL COMMENTS

have to make a choice going forward.

We feel Option 4 would be fantastic and make the park more economic so that is our "wish" but believe Option 2 is the most realistic and we would be pleased with that.

The need to progress the redevelopment is urgent for TRFU and our Taranaki rugby future.

Good Luck

## Have your say

### Tell us what you think

You can have your say online, by email or through the post. And if you want to, you can come along and explain your views personally to Councillors.

All submissions will be carefully considered before final decisions are made.

If you want more information, see the Annual Plan Statement of Proposal at [www.trc.govt.nz](http://www.trc.govt.nz), or you can inspect a copy at the Council office at 47 Cloten Road Stratford, or at District Council service centres or libraries. You can also call us on 0800 736 222.

### Making a submission

Submissions must be received by 4pm on Tuesday 23 April (Tuesday after Easter).

Online: [www.trc.govt.nz](http://www.trc.govt.nz)

Email: [info@trc.govt.nz](mailto:info@trc.govt.nz) ('Annual Plan submission' in subject field)

### COMMENTS

Not rebuilding an Stadium would be a disaster to be seen how a province without vision & a future. Taranaki has always been seen as a province that punches well above its weight in its endeavours. Attracting major events to our province whether it be entertainment sport business related is imperative to making it attractive to our young people to stay and be future leaders. Not only do we think we should rebuild, but show some real vision and go for option 8, North Island's first covered stadium.

### COMMENTS

It would be unimaginable to think that Taranaki did not have a major stadium to host representative rugby, and other codes, as well as high level national games from time to time. Yarrow's needs to be rebuilt as quickly as possible before irreparable damage is done to the fabric of sporting life, particularly rugby, in our province. We need our young boys and girls to aspire to higher levels of play and having a provincial stadium is a big part of this. Vibrant communities need to have facilities that give a focus and a heart — Yarrow is vital in this regard.

### COMMENTS

rugby is a major part of the fabric of life in Taranaki and as such a major part of a vibrant, connected and healthy community. Without a stadium there would be a huge effect on the future of rugby as game, and as such the health of our young people will be severely compromised. We do not want to be considered a minor province.

23 April 2019

Annual Plan Submission  
Chief Executive  
Taranaki Regional Council  
Private Bag 713  
STRATFORD 4352

Tena koe Basil,

**RE: 2019/2020 Annual Plan**

Te Runanga o Ngati Ruanui Trust (Ngati Ruanui) welcomes the opportunity to make a submission on the Regional Council's 2019/2020 Annual Plan.

Ngati Ruanui acknowledges the significant changes that have been made over the years in respect of annual and long term planning frame works and in particular the sections of the these plans which relate to "Working Together with Maori". Ngati Ruanui appreciates the on-going recognition of Maori, Iwi and Hapu as a key to making planning documents inclusive and a means to strengthen partnership relationships.

In respect of 2019/202 Annual Plan Ngati Ruanui makes the following comments:

1. Overall we support the section entitled "Working Together with Maori". This section continues to build on our initiatives of working together with the Council in our kaitiaki role. We continue to note the leading way in which this section is placed at the front end of the plan; making the enduring relationship between Council and Maori a strong platform.
2. Ngati Ruanui considers that there needs to a be a stronger intent for active involvement of Maori in the monitoring of our environment; we recommend that the last bullet point under "Resource Consents process" pages 14 and 15 reads as follows "give full and meaningfully input of Maori in the participation of resource consent monitoring .....".
3. Ngati Ruanui actively supports Mana Whakahono a Rohe Relationships as prescribed in the Resource Management Act 1991 (RMA). We note that the manner in which this is expressed in the draft Annual Plan is a singular Mana Whakahono a Rohe relationship. We note that by way of explanation under Section 58(O) of the RMA such relationships are not exclusively singular and each iwi of the region may choose to have an individual relationship with the Council. In this respect Ngati Ruanui recommends this section on page 15 read as follows: "The Council will work with iwi to develop Mana Whakahono relationship agreements regarding iwi input into resource management policy development and resource consents".

# TE RUNANGA O NGATI RUANUI TRUST

74 Princes Street  
P O Box 594, HAWERA  
Phone: 06 278 0148 Fax: 06 278 1358  
Email: office@ruanui.co.nz

4. Ensuring active Maori representation on the Council is important to Ngati Ruanui. In this respect the section on representation, page 15, is weak and we recommend the following: "Meet with Maori and involve them in the need for establishing a Maori constituency or constituencies under the local Electoral Act 2001".
5. The level of service, Resource Management, as set out on pages 20 to 24 do not include any measure that allow the incorporation Maturanga Maori assessments as a basis for measuring the health of various environmental indicators and most importantly Fresh Water. Ngati Ruanui considers that it is timely that there is inclusion of Iwi/hapu based tools and frameworks which would assist the more conventional western based models for measuring the condition of our environment. We would offer discussion with the Council officers prior to any hearing on the Annual Plan where we could agree on wording to incorporate Maturanga Maori assessments in the levels of service outlined on pages 20 to 24.
6. Ngati Ruanui notes the measures and commentary on a predator free Taranaki, this is supported. We also note specific measures relating to possum control within the Kaitake range and mustelid control surrounding the Maunga. Overall Ngati Ruanui is concerned with the limited measures proposed within the draft plan and the lack of co-ordination with the Department of Conservation; in particular in pest control surrounding and within the Maunga boundaries. We wish to signal to the Council that significant more work is needed to protect our bio-diversity and more coordinated action in the control of pests are required now. Ngati Ruanui seeks further dialogue with the Council on this matter and signals this for short to medium term planning horizons for the Council. The Council will need to be ready for potential governance changes with the pending Maunga settlement.

Ngati Ruanui welcomes continued discussion on the Annual Plan and wishes to be heard in respect of this submission.

Ngā mihi,

A handwritten signature in black ink, appearing to be 'Debbie Ngarewa-Packer', written over a circular stamp or seal.

Debbie Ngarewa-Packer

**To:** Mike Nield  
**Subject:** Yarrows Stadium submission

Hi Mike

Thank you for letting me put in a submission. Below are my thoughts on the Yarrows Stadium project.

The priority for the community and for ratepayer expenditure is community sport facilities which enable thousands of residents to be active every week as identified in the Regional Sports Facility Strategy. I support that a repair of some scale needs to be undertaken but do not feel that \$55 million should be spent, especially when it is to the detriment of all other sports in our community. I believe that the set up of the Stadium in the Nelson/Tasman district is a model that our Regional Council should follow. The scale of their Stadium is appropriate for our region which is of a similar size. Nelson still gets to host the 'big' games of Rugby despite having a more basic set up so why can't we follow their example? I feel that there is a much greater need for a more equitable approach to facility improvements and funding across all sports.

Regards

Sonia Thomas

## **Sport Taranaki Yarrow Stadium Submission**

April 2019

### **Organisation Overview**

Sport Taranaki is one of 14 Regional Sports Trusts throughout New Zealand. Sport Taranaki is a registered charitable trust with a vision for creating an 'Active Healthy Taranaki'. Sport Taranaki has been a local leader in the sport and recreation sector for over 25 years and for the past 10 years has been located in a building to the south-east of the East Stand at Yarrow Stadium.

Sport Taranaki serves a population of over 120,000 across three districts, one regional council, one district health board, 94 schools, 35 regional sport and recreation organisations, and over 500 sport and recreation clubs. Sport Taranaki straddles the same area boundaries as the Taranaki Regional Council and both organisations have aligned objectives around 'Improving Lifestyles'. For Sport Taranaki a significant part of our core business is working with clubs, Regional Sports Organisations, Councils, facilities, and community groups to create environments that enable our communities to have positive physical activity, sport, and recreation experiences throughout life. Because of this we have close relationships with many sports codes and understand many of the issues they face in terms of facilities but also with respect to their utilisation of Yarrow Stadium in the past, present, and into the future.

### **Sport Taranaki's Interests in Yarrow Stadium**

Sport Taranaki are committed to the objectives of the Sport NZ Facility Framework. The Framework Outcomes include strategic decision making around facility development, smart investment, and a network of facilities that are fit for purpose, well utilised, accessible, sustainable, and future proofed.

As a key delivery partner for Sport NZ, Sport Taranaki has been integral to the development and implementation of the Taranaki Regional Sport and Recreation Facility Approach. The Approach was developed by a Regional Stakeholder Project Group with assistance from external consultants – Global Leisure Group. The strategy development process included an extensive document review and consultation with sports codes and facilities. The Approach is intended to provide a framework to guide regional and district provision, collaborative planning, and investment. The documentation that informed the Approach includes an inventory of existing facilities, an analysis of the gap between the current provision and future needs of 42 sports, identification of future investment requirements, establishment of a facility hierarchy for the region, and a prioritised list of recommendations for facility development and rationalisation. Overprovision was identified in some districts and within certain codes as well as gaps in provision, particularly in New Plymouth. It highlighted that New Plymouth is where demand for more provision from population growth and population changes will occur. Facilities will need to be more adaptable, attractive, multi-purpose, and better meet the needs of a wider range of activities and users.

The key objectives of the Approach are to develop a strategic region-wide view of the facility network and to identify priorities for future facility planning that respond to the changing landscape of sport. The community sport context for facility development and rationalisation includes pressure on funder investment priorities, an aging network of facilities, changing community demographics and participation trends, increasing user expectations, a decreasing volunteer culture and increasing volunteer burden, an acknowledgment of the hierarchy of facilities, as well as the risks of responding to wants over needs.

Ordinarily these objectives would sit outside the realm of commercial and spectator sport which is at the heart of Yarrow Stadium, however the current proposal and preferred option(s) for Stadium development include significant increased ratepayer investment, sport-specific enhancements, and proposed increased 'community use' all of which are of interest to Sport Taranaki and align to the Approach. As such we feel the same rigor and equity must be applied to this project as it would be to all sports facility proposals.

The Approach was adopted by the Steering Group in 2018 who have led its implementation. The Steering Group includes representatives from the original Stakeholder Project Group – New Plymouth, Stratford, and South Taranaki District Councils, TSB Community Trust, NZCT, TET, Sport NZ, and Sport Taranaki. The Group has developed a process for reviewing and assessing facility projects (including maintenance and redevelopment) against the priorities, facility planning principles, and criteria set out in the Approach for making recommendations to funders and improving collaborative decision making. Since January 2019 the Group has reviewed 14 projects of varying scale, from sport and recreation organisations for facility improvements, maintenance, or development.

### **Observations**

Sport Taranaki acknowledges that Yarrow Stadium is important to the region; it is part of our history, our pride, and our network of sports facilities particularly for high performance sport. We commend Taranaki Regional Council's swift action in ensuring public safety with respect to the earthquake risks that have been identified and your concerted efforts to find a suitable solution to get the Stadium operational once more.

### **Recommendation**

Sport Taranaki respectfully asks that Taranaki Regional Council reconsiders the proposed options and provide more information to the public about options between \$6million and \$55million.

All options (excluding Option 1) include a permanent capacity of 20,000+; Sport Taranaki does not support this scale of stadium for Taranaki. The BERL Report clearly states that the only times capacity over 15,000 is required is for All Blacks matches once every 3 years and a NPC semi-final in 2014. We believe this additional capacity could be met with temporary seating which could also serve other sports codes within the region if transportable. The Regional Sport and Recreation Facility Approach clearly states that "...it is recognised that providing high performance training facilities or International/National level facilities for major sporting events it is not supported in terms of the level of demand and is not economically sustainable for a region of Taranaki's size. (page 21)".

The appropriate scale of solution must be considered in light of the following:

- Rugby Park (the site of Yarrow Stadium) is not an appropriate or preferred location for a Multi-Sport Hub due to size, location, current use restrictions
- Yarrow Stadium must be considered within the context of the wider network of sport facilities and current needs, priorities, and processes for the region
- Declining spectator trends across the country
- Declining rugby participation trends nationally
- The changing nature of sport participation and move towards modified sports and informal participation

- The NZ Rugby Union's inability to provide certainty over All Blacks fixtures in the regions and the cost to bring such fixtures to Taranaki compared to the benefits of hosting other sporting fixtures (i.e. national secondary schools tournament week)
- The impact of a substantial rates increase on our aging population and on our District Council's ability to increase rates for priority sport and community projects

Sport Taranaki supports reinstating the function of Yarrow Stadium with the least impact on ratepayers as suitable to service the majority of its Stadium-related events (5,000 – 10,000 spectators). And while we appreciate that additional revenue can be generated through expanding corporate functionality we do not believe that this the main purpose of the Stadium or a priority for ratepayers.

Sport Taranaki does not support the funding of sport-related enhancements via this proposed model and asks that these either continue to be accounted for under the existing Asset Management Plan or are considered within the priorities and process of the Regional Sport and Recreation Facility Approach. In terms of rugby, some key challenges have been identified that were common amongst a number of sport codes and included access to a regional training venue (including an artificial floodlit turf for representative and some club players), improved field quality and drainage, a large multi-field venue, training lights, and the ongoing maintenance of clubrooms and changing facilities which highlights why these activities should be considered as part of a collaborative planning process.

Sport Taranaki recommends that Regional Council further investigates the empowering legislation as an opportunity to broaden the scope of its powers beyond Rugby Park so that any future or additional rate takings could be considered for targeted regional sport and recreation facility investment. This has been a successful model recently implemented by Northland Regional Council to grow and develop sport and recreation across their region.

Thank you for the opportunity to provide feedback on the proposed options for reinstating Yarrow Stadium and for the information that has been provided to date, we look forward to speaking to this submission in May.

YARROW STADIUM

Which is your preferred option for the future of Yarrow Stadium?

Tick one of these boxes:

- ☐ Option 1: Demolish stands, grass banks
- ☒ Option 2: Repair stands and update facilities  
This is the Council's preferred option
- ☐ Option 3: Repair stands, add extra uncovered seating
- ☐ Option 4: Repair stands, add extra seating, add community facilities  
This is a potential preferred option if a co-funding partner emerges
- ☐ Option 5: New East Stand, extended West Stand, new South Terrace
- ☐ Option 6: New East Stand, extended West Stand, new North Stand, new South Terrace
- ☐ Option 7: New Stadium
- ☐ Option 8: New Stadium with roof

23 April, 2019

Chair and Councillors,

Re: Yarrow Stadium

Many thanks for the opportunity to comment on your draft 2019/2020 Annual Plan, specifically relative to the opportunity for this region to again host international events in a world class stadium.

I acknowledge some of my perceived conflicts –

The stadium bears my wife Rosemary's maiden name.

The west stand carries the name of Rosemary's parents (Noel & Melva Yarrow Stand)

I sit on the TRFU

Rosemary and I have connections (as members, sponsors, trustees, and patrons) with a significant number of local organisations.

Rosemary and I own The Devon Hotel.

We are responsible for total annual rates payments in the six figures, spread over a number of properties – each will attract a targeted fixed annual charge should this proceed.

I would like to congratulate you all on your leadership!

For the region to retain and attract people (and investment), it is critical we are seen as a great place to live, to work, and to raise a family. Having a world class stadium, is a vital part of that mix.

We need to be perceived to have it all. And that list is exhaustive. It includes a continually enhanced and valued environment we are all proud of, parks, galleries, walkways, education, safety, opportunities for our young people to become the best that they can be, support and opportunities for the elderly and for our most vulnerable....the list goes on and on – a region that is truly like no other.

Time and time again, it is you all (and the Taranaki Regional Council), that have stepped up. Again, I thank you.

Never the less, as a region we need to think bigger, I accept the premise that the contribution from the ratepayer purse (through the TRC) should be capped at \$55M.

BUT I truly believe we can and should do better. What was an appropriate and world class stadium 20 years ago, is not so now. Yes, I'd love to see the Stadium up and available as soon as possible, but I also believe as a region we have a unique opportunity to think (and develop) a stadium for the next 20 years. It's an opportunity, that will not come again in our lifetimes.

I would be disappointed if the government does not also show leadership with a significant top-up to make that possible. Our governments talks about their backing for regional New Zealand – now is the time to support that rhetoric. To create something unique and special for New Zealand, it is critical our government fronts up.

I would be disappointed if philanthropic trusts, corporates, and individuals associated with this place do not step up.

Chair and Councillors, the issues we are facing at Yarrow Stadium are unfortunate, but presents us a unique opportunity. I ask that you approve the \$55M in your draft 2019/2020 Annual Plan. I also ask that your vision is not restricted to Option 2. Time is of the essence, but let's think big picture. Let's give our government and others an opportunity to step up.

I am aware that a number of the sporting bodies (most that Rosemary and I support in various capacities) will be making submissions to the effect that the demands of sport are continually changing, with old and new sports and sporting opportunities not being appropriately catered for at present. I accept that is not the specific mandate of the TRC, but I would encourage the TRC and the Yarrow Stadium Trust to work with those codes to maximise the opportunity this presents us. Before contracts are let, it's important we maximise the potential benefits, now and into the future.

We need to aspire to have a cutting-edge stadium, that caters for events (sporting and otherwise), that is truly world class – a stadium that caters for the next 20 years and beyond. A stadium like no other.

I ask:

The TRC approves a contribution of \$55M to the reinstatement and enhancement of an International Stadium

The TRC instructs the Yarrow Stadium Trust to work with interested parties to maximise the opportunities (sporting and otherwise) with the developed stadium.

The TRC instructs the Yarrow Stadium Trust (with the support of appropriate community leaders and organisations) to use best endeavours to attract significant additional financial support.

I would appreciate the opportunity to speak to my submission.

Yours faithfully,

A handwritten signature in blue ink, appearing to read 'Peter Tennent', with a long horizontal flourish extending to the right.

Peter Tennent QSO
