

## Schedule 3 – Coastal sites with significant amenity values

This schedule identifies those coastal sites that have significant amenity values. Amenity values refer to those natural or physical qualities and characteristics of an area that contribute to a people's appreciation of its pleasantness, aesthetic coherence, and cultural and recreational attributes. Amenity values may apply throughout the coastal marine area. However, the following sites have been identified as having 'regionally' significant amenity values.

Table 1 contains sites with significant amenity values not identified within other schedules of this Plan.

For completeness Table 2 refers to sites with significant amenity values which have been identified within other schedules of this Plan.
