Appendix 1: Resource Management Act Charging Policy

SCHEDULE OF CHARGES PURSUANT TO SECTION 36 OF THE RESOURCE MANAGEMENT ACT 1991

SCHEDULE 1: SCALE OF CHARGES FOR STAFF TIME

Rate for processing resource consents and responding to pollution incidents.		Rate for all other Council work.	
Level 1	Senior management	\$338/hr	\$317/hr
Level 2	Managers/supervisors	\$157/hr	\$147/hr
Level 3	Professional staff	\$109/hr	\$101/hr
Level 4	Professional staff	\$86/hr	\$81/hr
Level 5	Support staff	\$86/hr	\$81/hr

EXPLANATION

This scale of charges is used to calculate the Council's actual and reasonable costs when carrying out functions under the *Resource Management Act 1991*. Where those actual and reasonable costs exceed any specified charges, the Council may recover those costs as additional charges under section 36(3) of the *Resource Management Act 1991*. Staff time is recovered at the charge appropriate to the task which they are undertaking. The charges are calculated as per the IPENZ method with a multiplier of 2.1. All collection costs incurred in the recovery of a debt will be added to the amount due. All charges exclude GST. Effective from 1 July 2015.

SCHEDULE 2: FIXED MINIMUM CHARGES FOR THE PREPARATION OR CHANGE OF POLICY STATEMENT OR PLANS AND THE PROCESSING OF RESOURCE CONSENTS

EXPLANATION

The Council's fixed initial deposit charges for activities with tailored compliance monitoring programmes are presented in various groups based on the nature of the discharge and/or type of industry. Any additional costs over and above the initial fixed deposit will be charged in arrears.

For new tailored compliance monitoring programmes or inclusion of new consents into existing programmes (that arise between the setting of these charges and the end of the financial year that they relate to), an estimate will be provided to the consent holder and compliance monitoring work charged according to this. Where no invoice is provided, compliance monitoring costs will be recovered per Schedule 6 or 7 of this *Plan*.

Additional charges may be levied under section 36(3) of the *Resource Management Act 1991* where the Council's actual and reasonable costs exceed the fixed monitoring charge. See the scales of charges for staff time, consultants, plant and laboratory analyses set out in Schedules 1, 3 and 4. All collection costs incurred in the recovery of a debt will be added to the amount due. All charges exclude GST. Effective from 1 July 2015.

SCHEDULE 6: FIXED MINIMUM CHARGES FOR MONITORING WHERE NO TAILORED COMPLIANCE MONITORING PROGRAMME EXISTS

The fixed charge for the annual farm dairy discharge compliance monitoring inspection and sampling are set out below:
Discharge to land consent: \$286

Discharge to water, no sampling: \$286

Discharge to water consent, including sampling discharge and receiving environment: \$854

Discharge to land and water consent, including sampling discharge and receiving environment: \$918

Discharge to land and water consent, no sampling: \$329.

Where non-compliance is detected the following additional monitoring re-inspection and sampling fixed charge may apply:

	Minor	Significant
	Non-	Non-
	compliance	compliance
Discharge to land or	\$711	\$1,313
water consent, no		
sampling		
Discharge to water	\$1,132	\$1,734
consent, including		
sampling and		
reinspection		

EXPLANATION

The above fixed minimum charges for the annual farm dairy discharge compliance monitoring inspection and re-inspection, both including sampling, are based on actual and reasonable charges for staff time (Level 4- Professional Staff, Schedule 1) and laboratory analyses (Schedule 4). The above fixed minimum charges for monitoring, re-inspection and sampling after non-compliance with resource consent conditions or the Resource Management Act 1991, whether this arises from the annual inspection or not, are based on actual and reasonable charges for staff time (Level 4- Professional Staff, Schedule 1) and laboratory analyses (Schedule 4). Each farm dairy discharge non-compliance will be assessed in the context of the consent granted and compliance history of the consent. Significant non-compliance activities are non-compliances that will have actual or potential effects on the environment. Examples of a minor non-compliance are deficient baffles between ponds, minor failure to contain shed/race effluent and washings where these discharge to land, and stormwater diversion system deficient. Examples of significant noncompliance are ponding of effluent on the soil surface (unauthorised by resource consent), breach of discharge standards required in the resource consent, inadequate effluent storage and land area, significant increase in stock numbers beyond those allowed in the consent, and an inadequate effluent system. The above are examples and it should be noted they do not represent a complete list of noncompliances.

Additional charges may be levied under section 36(3) of the *Resource Management Act 1991* where the Council's actual and reasonable costs exceed the fixed monitoring and noncompliance charges. An example is a significant noncompliance for a discharge to land farm dairy discharge consent where sampling costs of the discharge and receiving water may be required. See the scales of charges for staff time, consultants, plant and laboratory analyses set out in Schedules 1, 3 and 4. All collection costs incurred in the recovery of a debt will be added to the amount due. All charges exclude GST. Effective from 1 July 2015.

SCHEDULE 7: FIXED MINIMUM CHARGES FOR MONITORING WHERE NO TAILORED COMPLIANCE MONITORING PROGRAMME EXISTS

The fixed charge for a compliance monitoring inspection that is not addressed in Schedule 5 or 6 is \$286 per inspection plus any additional plant or laboratory analyses costs as set out in Schedules 3 and 4.

The fixed charge for a compliance monitoring re-inspection arising from non-compliance detected in an inspection that is not addressed in Schedule 5 or 6 is \$319 per inspection plus any additional plant or laboratory analyses costs as set out in Schedules 3 and 4.

EXPLANATION

The above fixed charges for compliance monitoring inspections and re-inspections are based on staff time for a Level 4- Professional Staff (Schedule 1). Additional charges may be levied under section 36(3) of the *Resource Management Act 1991* where the Council's actual and reasonable costs exceed the fixed monitoring charge. See scales of charges for

staff time, consultants, plant and laboratory analyses set out in Schedules 1,3 and 4. All collection costs incurred in the recovery of a debt will be added to the amount due. All charges exclude GST. Effective from 1 July 2015.

SCHEDULE 8: CHARGES FOR THOSE REQUESTING HEARING COMMISSIONERS

An applicant or submitter(s) making a request, under section 100A of the *Resource Management Act 1991*, shall be required to pay the additional costs as reasonably determined by the Council using costs set out in Schedules 1 and 2, with a \$10,000 minimum payment to be made at the time of the request.

EXPLANATION

For a notified resource consent application an applicant or a submitter may request that the Council delegate its functions, powers and duties required to hear and decide the application to one or more independent hearing commissioners. Sections 36 (1)(aa) and 36(1)(ab) of the Resource Management Act 1991 allow the Council to estimate the additional costs as if the request had not been made and recover these costs from the requestor(s). The requirement to pay an initial minimum payment arises under sections 100A(2) and 36 of the Resource Management Act 1991. Where more than one submitter makes a request the costs may be shared equally. If payment is not made then the request will not be implemented. If the additional cost of independent hearing commissioners is less than the minimum payment then a refund will be made. Schedule 1 sets out the Councils scale of charges for staff time and schedule 2 sets out the fixed minimum cost of processing resource consent applications and includes hearing costs. All collection costs incurred in the recovery of a debt will be added to the amount due. All charges exclude GST. Effective from 1 July 2015.

EXPLANATION

The charges are for the Council's actual and reasonable costs when carrying out functions under the Building Act 2004 in relation to dams. The charge (in most cases) will be made up of a deposit and where required an additional charge, when the cost of performing the function exceeds the deposit by more than \$20. If the cost of performing the function is less than the deposit paid by more than \$20, a refund will be given. The Building Act does not specify a particular procedure for the

Council to follow when setting *Building Act* fees and charges. Charges under the Building Act 2004 for performing any other function under the Act will be based on the staff charge our rates in Schedule 1. The Council has decided, for completeness and ease of reference, to include these charges in this Plan. All collection costs incurred in the recovery of a debt will be added to the amount due. All charges are GST exclusive. Effective from 1 July 2015.
